

Allied War Prisoner Claims Faked, Communists Charge

MUNSAN (P)—The Communists today accused the Allies of faking a list of missing U. N. soldiers, mistreating war prisoners and kidnapping a Pole who fled a truck supervisory team into American sanctuary.

The Reds unloaded this barrage as the Korean armistice moved rapidly into a new phase—the disposal of Red and Allied prisoners who refuse to return to their homelands.

The first group of 500 North Koreans moved into the buffer zone under control of Indian troops today.

A spokesman said they threw rocks in rage when they saw two Communist observers standing out-

side a barbed wire fence. Neither was hit.

The first group of 1,900 anti-Red Chinese was to be turned over to Indian troops Friday.

Prison Damaged By 800 Rioters At Walla Walla

WALLA WALLA, Wash. (P)—Quiet settled over the Washington State Penitentiary today and a prison official said "all appears peaceful" after Wednesday night's damaging riot and fire.

Deputy Warden Al Rembold said 800 inmates who took part in a noisy uprising that followed a half-million dollar prison fire remained in their cells and "no fresh trouble is anticipated."

Guards, who broke up the disorders by spraying prisoners' quarters with tear gas, continued to patrol prison walls and buildings. They had the help of state patrol and sheriff's officers who hurried to the prison when the trouble began.

The guards were credited with keeping the outbreak to a minimum. They quickly herded prisoners into their cells when 14 inmates began acting up at evening meal time. Dishes were thrown and chairs smashed as a group of "young but tough" men began misbehaving.

Estranged Wife Warns Crooner Dick Haymes He May Be Bigamist

HOLLYWOOD (P)—Crooner Dick Haymes' estranged wife says he'll be a bigamist if he goes ahead with reported plans to get a quick Nevada divorce and marry actress Rita Hayworth this month.

Nora Eddington Haymes has filed suit for a California divorce. A hearing is expected the first part of October.

"There's a waiver in a Nevada divorce requiring my full consent to it before it is legal in California," she said Wednesday night.

"I don't care if Dick and Rita want to get married. I hope they'll be happy. But I'm going to insist on having my hearing first."

"If Dick marries without my consent to the divorce, he'll be a bigamist."

Bandit With Dimple Scoops Up \$28,000

STAMFORD, Conn. (P)—Two dungaree-clad young men, one with a dimpled chin, held up a branch bank here today and scooped all the money out of the cashiers' cages.

The loss was estimated at \$28,000.

Only three employees, the manager and two tellers, were in the Fidelity Title and Trust Co. branch when the robbers entered 20 minutes after it opened.

Threatened with guns, the employees were forced to stand aside as the bandits vaulted the counter and rifled the cash drawers.

Nine Airmen Jump In Desert Collision, Rescued By Copter

LUKE AIR FORCE BASE, Ariz. (P)—An Air Force helicopter dropped down into a sandy desert wasteland near the ghost town of Sundad, Ariz., early today and rescued nine stranded airmen.

The flyers parachuted from a KC97 tanker damaged in an aerial collision Wednesday.

The rescue came more than 20 hours after the four-engine tanker collided with a B47 jet bomber while refueling in flight.

The nine crewmen of the tanker parachuted.

The ships limped back safely, the Stratofort to Davis-Monthan Air Force Base, Tucson, with its crew aboard and unhurt.

Dies Saving Puppy

COLUMBIA, S. C. (P)—Eight-year-old Jimmy Bumgardner gave his life to save his puppy from being hit by a passenger train.

Jimmy snatched the dog from the Southern Railway tracks near the station here Wednesday and was hit by the diesel locomotive. He died a few hours later.

Three Convicted For Picture In Cleveland Court

CLEVELAND (P)—Common Pleas Judge Joseph H. Silbert Wednesday convicted three members of the Cleveland Press' editorial staff of contempt of court for a picture taken in the judge's courtroom. Their attorneys announced they would appeal.

City Editor Louis Clifford was fined \$500 and costs and ordered held in the custody of the sheriff for one hour. Reporter Sam Giamio was fined \$100 and costs. Photographer James Thomas was fined \$100, suspended.

Newsman Appeal
However, the sentences were stayed after Atty. Gen. J. Edwards general counsel for the Scripps-Howard Newspapers, announced he would file a notice of appeal. The newsman were released on bond.

At issue was the making of a photograph of Former Probate Judge Nelson J. Brewer as he was arraigned last Aug. 20 on a charge of embezzlement. Brewer pleaded innocent.

Judge Silbert contended he had told reporter Giamio on the press-covered afternoon no pictures would

MacInnis Of Soo Named To State Agriculture Board

LANSING (P)—Two Republicans, long prominent in farm circles, today willingly sat on the political hot seat resulting from the firing of Charles Figy as State Agricultural Director.

The two men, Arthur J. Hannah of Grand Rapids and John J. MacInnis of Sault Ste. Marie, accepted appointment by Gov. Williams to the State Agricultural Commission.

They took on the job, with three Democratic commissioners, of finding a successor to Figy who would quiet the outcries a GOP farm circles against Figy's dismissal.

Hannah and MacInnis succeeded E. Roy Eagle of Sault Ste. Marie and George McIntyre of Saginaw, two Republicans whose term had expired shortly after their refusal to join in Figy's firing.

Hannah, 48, is a poultryman of prominence and a brother of President John A. Hannah of Michigan State College. He is executive director of the Michigan Agricultural Conference, a director of the American Poultry and Hatchery Federation and of the Michigan State Poultry Improvement Association.

In June he was named as a member of the Poultry and Egg Advisory Board of the U. S. Department of Agriculture.

MacInnis is an active farmer, who served 14 years as member of the Upper Peninsula State Fair and two years as its secretary-manager.

Auto Kills Baby

By The Associated Press
MUSKEGON (P)—A neighbor's car that backed over him killed 18-month-old John Harkness while he played in front of his home Wednesday.

Ernie M. Buntin, 47, the driver, told police he failed to see the child.

Queen Asks Alimony Of \$14,350 Monthly From Ex-King Farouk

CAIRO, Egypt (P)—Former Queen Nourin has filed suit for divorce and asked \$14,350 a month alimony from ex-King Farouk, 33.

She "has no plans so far" to claim the custody of their 19-month-old son, her lawyer, Sheikh Muhammad Fahim, said Wednesday. He said Nourin charged adultery, maltreatment, mental cruelty and estrangement.

Farouk is living near Rome with his son. Nineteen-year-old Nourin fled Egypt with him but returned last March and since has lived quietly with her mother in Heliopolis, a Cairo suburb.

Colonists Nabbed For Nude Parade

NELSON, B. C. P.—Seventy-one women and 77 men in the Doukhobor tent village of Polatka were arrested Wednesday night for parading in the nude in protest to orders that their children attend public schools.

The arrests were made by Royal Canadian Mounted Police in the village situated on the outskirts of nearby Perry Siding, 250 miles east of Vancouver, B.C. The members of a radical wing of the Doukhobor colony were rounded up and put on Canadian Pacific Railway cars for shipment to Vancouver. They offered no resistance but remained unclothed during the roundup.

All of the 148 persons arrested have been charged with contributing to juvenile delinquency.

Only a few of the Doukhobor children showed up at school opening time.

The radical group has for years opposed regularly constituted authority. They have been a headache to provincial authorities ever since coming from Russia early this century.

Gen. Dean's Wife Won't Meet Him In Tokyo

BERKELEY, Calif. (P)—Mrs. Mildred Dean has called off plans to fly to Tokyo to greet her repatriated husband after Maj. Gen. William F. Dean telephoned her he would be home within two or three weeks.

Dean, winner of the Medal of Honor, was freed by the Communists last week after three years as a prisoner of war. He had commanded the U. S. 24th Division.

Dean is undergoing treatment in a Tokyo Army hospital for amoebic dysentery, contracted in Korea.

Wave Of Volunteers Hits Draft Offices

More U.S. Millions May Go To France For Indochina War

WASHINGTON (P)—An extra \$350 million dollars to help France battle the Communists in Indochina was reported today to have been recommended by the U. S. National Security Council.

Round-sum figures were first disclosed here, and French Premier Laniel later specified the total in a Paris statement. He expressed great satisfaction at the recommendation.

The American funds would enable France to transfer nine battalions of troops from Europe to Indochina to lead a new campaign against the Communist-led guerrillas.

Highly placed officials who reported this said the security coun-

Soldiers Beat Up Ratters On Ship

SAN FRANCISCO (P)—Another 422 American repatriates returned home Wednesday from long imprisonments in Communist prison stockades in Korea.

Several undred relatives and friends cheered their arrival on the Navy transport Gen. John Pope—fifth repatriation ship to dock at Ft. Mason in the past two weeks.

The Marine Phoenix, carrying 374 more ex-prisoners, is slated to dock Sunday, the Military Sea Transport Service said.

The returnees said at least two so-called "progressives"—Americans whom fellow prisoners said cooperated with the Communists in prison camp—were beaten aboard the Pope.

Cpl. Harold W. Beerbower of Saegertown, Pa., said about 10 "pros" were aboard the Pope and they were segregated after the beatings, which occurred the first day out of Inchon, Korea.

His account was supported by Pfc. Thomas M. Caroland Jr. of Cedar Hill, Tenn.

Caroland said one of the beaten men was "just a jerk who was afraid," but he called the other "a real rat who spied for the Reds and got several Americans tortured."

Nations Heal Rift

BELGRADE, Yugoslavia (P)—President Tito approved today a request from Bulgaria to send a new ambassador to this country.

Bulgaria has not been represented by an ambassador since 1950 after the break between Yugoslavia and the Russian-led Cominform.

Chinese Red Guns Kill Six Britishers Aboard Navy Patrol

HONG KONG (P)—This British crown colony prepared today to bury a reserve captain in its army defense force and five Royal Navy men killed Wednesday when a Chinese Communist warship fired on a Hong Kong naval patrol launch.

Five wounded survivors of the attack in the estuary of the Pearl River were in the Royal Navy's Hong Kong hospital under tight security guard. They had been picked up by the destroyer Comcord after reportedly suffering both bullet and shrapnel wounds.

The one identified victim of the fray was E. Frank Gower, an accountant with a Hong Kong firm who held a reserve captaincy in the colony defense force.

Details Lacking
Identities of the other slain have not yet been disclosed.

In London, the Admiralty said the 72-foot launch carried two officers and a crew of 12. It was on normal patrol duty at the time of the shooting.

Presumably the rest of the men aboard the launch were rescued.

The navy said the clash occurred Wednesday in international waters seven miles southwest of Lin Tin Island. This is south of Hong Kong and on the east side of the Pearl River Estuary leading to the Communist Chinese port of Canton, 90 miles upstream.

Official details of the incident were lacking. Colony officials maintained a close-mouthed attitude, apparently seeking to avoid heightening the already tense relations between Hong Kong and Red China.

Couldn't Return Fire
Reserve navy officers unofficially said the attack probably was made by a Red Chinese corvette usually stationed in the estuary on patrol.

Another navy source said, however, that one report claimed the launch had been hit by shells from a Communist LST (tank landing ship).

The launch was never able to return the Red fire, a Navy source said.

TELLS OF NAVY TIP—Stanley L. Bishop, shown at his Washington, D. C., home, told of picking up a tip about Navy plans to buy rocket launchers from a conversation overheard in a Navy Department coffee bar. He said he passed the tip to Warren Stephenson, prominent Republican, who allegedly contacted a West Coast firm and offered to help him get a lion's share of the Navy contract for a four-percent fee. (NEA Telephoto)

Those indicted were accused of asking and receiving a fee—reportedly five cents for each load of dirt excavated from the various construction projects—from contractors.

Bribes Alleged
Aides also said the defendants were charged with accepting money from contractors to prevent or end labor disputes.

The alleged offenses occurred between Jan. 1, 1948, and Aug. 31, 1953, the indictments charged.

Teamsters officials indicted included:

Mike E. Nicoletti, 43, president and business agent of Local 247.

Samuel J. Marrosso, 39, also a Local 247 business agent.

Anthony J. Liuzzo, a third business agent of Local 247.

Daniel J. Keating of Pontiac, 51, president and business agent of Pontiac Local 614.

Frank E. Fitzsimmons, 45, of Milford, vice president of Local 299.

Bonds Set At \$5,000
The five appeared yesterday before Judge Culehan and he set bonds of \$5,000 each for Nicoletti, Marrosso, Liuzzo and Keating and \$2,000 for Fitzsimmons.

Another business agent of Local 247, Zemy Grzelewski, was named by the grand jury as a co-conspirator but not a defendant.

The five union leaders, as well as the four John Does, were named on extortion charges, which carry penalties of 20 years in prison.

Other charges against them included conspiracy to extort, conspiracy to request and accept gifts, gratuities and commissions from contractors by acting in a particular manner in relation to their local unions, and requesting and accepting gifts, graft, and commissions.

Beauty Loses Leg And Arm, But Still Plans For Career
LAKE ARROWHEAD, Calif. (P)—A courageous girl whose ambitions to become a dancer were shattered by the loss of an arm and leg in a speedboat accident is making plans for "some sort of career" in Hollywood.

Beautiful Boni Buehler, 23, insists she has had only a few "low moments" since the slashing blades of a speedboat propeller on Lake Arrowhead severed her left arm and leg three weeks ago.

From a bed in Santa Anita Hospital overlooking the lake, the former airline stewardess told newsmen:

"Not once since it happened have I felt sorry for myself," she said yesterday. "Nor have I regretted going out on the boat that day. . . I'm a fatalist. This must have been meant to happen. . . I guess the answer is, I believe in God."

Youths Prefer Military Service Before College

LANSING (P)—A wave of volunteers is hitting local draft board offices in the many parts of the state.

Lt. Col. Arthur A. Holmes, State Selective Service Director, said the number of volunteers for military service "is extremely high"—so high that some local draft boards have asked to have their draft quotas for the month increased.

Surplus Held Back
Col. Holmes said the upsurge of volunteers will not mean a reduction of future draft calls generally.

"The Army has its training and induction centers fixed for only a certain number of men each month," Col. Holmes explained.

"Therefore, we cannot take more in any one month than our call permits. So if we have more volunteers than the call provides, which has happened in a number of counties, the surplus will have to wait until the next month."

Col. Holmes said, however, that counties with waiting volunteers will be given higher calls in future months and the gain subtracted from counties with no volunteers.

Boys Look Ahead
The draft director attributed the upswing in volunteers to "young men taking a different view of their responsibilities."

"I think," he said, "a lot of boys who have just graduated from high school have realized that their future education is involved. I think they are figuring that it is better to volunteer for two years and come out of service before the college year begins, rather than wait to be drafted and probably be discharged in mid-year when they would have to waste time getting into college."

Solons To Study Farm Problems

WASHINGTON (P)—Additional details of a "grass roots" study of farm problems in 16 southern, western and midwestern states were announced today by the House Agriculture Committee.

The committee, headed by Chairman Hope (R-Kan.) and traveling by special bus, already has made a tour into New England.

The midwestern leg of the trip will start on Oct. 11, with committee members assembling at Minneapolis. Oct. 12 and 13 will find the touring congressmen in Watertown, S. D.; Oct. 14 in Norfolk, Neb.; Oct. 15 and 16 in Des Moines; Oct. 17 in Quincy and Bloomington, Ill.; Oct. 18 and 19 in Indianapolis, and Oct. 20 in Columbus, Ohio.

Hope said the purpose of the trips is to obtain directly from farmers information "their problems, their hopes, their criticisms, their ideas. We want to know how they feel about our present farm programs and to get from their own ideas and proposals for improvements in these programs or solutions to the many problems of agriculture."

Barrage Of Balloons To Carry Bibles Behind Iron Curtain

NEW YORK (P)—The International Council of Christian Churches said Wednesday it will send a barrage of 10,000 balloons carrying small bibles into Iron Curtain countries.

The barrage, conducted from Western Germany, is part of a plan to float more than 50,000 Bibles and religious tracts into Russia and its satellites.

The program got under way a week ago, when 5,000 Bible-carrying balloons were sent aloft.

Two More Die As Result Of Auto Injuries

The death toll of a highway accident Monday at the junction of US-2 and US-41 in Rapid River climbed to three this morning at 11:30 with the death of Harold DuRoy, 33, of Gladstone, at St. Francis Hospital.

A second victim, Richard Gagnon, 25, also of Gladstone, died at the hospital last night at 11:45.

David Paul Smith, 18, of Kipling, died Monday night from injuries received in the same wreck.

Rallied Briefly

DuRoy never regained consciousness. Gagnon rallied briefly Wednesday afternoon, regaining consciousness and talking to relatives, his doctor said. Then he took a sudden turn for the worse, and died. He had suffered a skull fracture in the wreck.

Richard Francis "Dickie" Gagnon, who lived at 922 Superior Ave., Gladstone was born June 1, 1928, in Gladstone. He attended All Saints' Parochial School and Gladstone High School.

A mechanic, Gagnon worked for several years for H. J. Norton Co. in Gladstone. He was then employed by the John Deere Farmers Supply Co. in Escanaba, for whom he worked until two months ago.

Surviving are Gagnon's mother and stepfather, Mr. and Mrs. Martin Caldwell of Gladstone. Four sisters survive: Mrs. Robert (Elaine) Pepin, Gladstone; Mrs. James (Katherine) Marshall, Elkhardt, Ind.; Mrs. Joseph (Dorothy) Raspor, Kipling; and Mrs. Tony (Beverly) Raspor, Gladstone Rte. one.

Also surviving are four brothers: James Gagnon, Bay City; Robert Lee Gagnon, with the Air Force in Fort Worth, Tex.; and Marvin Gagnon and Melvin Gagnon, both of Gladstone. In addition, a half-brother, John Caldwell, and a half-sister, Mary Jane Caldwell, both at home, survive.

The body has been taken to Skradski Funeral Home, Gladstone. Arrangements are not yet complete.

DuRoy Born Dec. 6, 1919
Harold DuRoy, of 1219 1/2 Wisconsin Ave., Gladstone, was born Dec. 6, 1919, in Frontier, Mich. He resided in Masonville for a number of years but has lived in Gladstone for the past 10 years. He was employed by the Stang Tank Line.

He is survived by his widow, Joyce; two sons, Jerry Louis, and Paul, and a daughter, Janice; his parents, Mr. and Mrs. Irvin DuRoy, Gladstone; three brothers, Charles and Paul, Gladstone; Otto, Oxnard, Calif.; Mrs. Robert (Pauline) Hamilton, Rapid River; Mrs. Walter (Vernice) Coolman, Marshallfield, Ill.; and Mrs. Pearl Longberry, Rockford, Ill.

The body was removed to the Skradski Funeral Home. Funeral arrangements are incomplete.

Samuel Molod Will Speak At Carnegie Open House Here

Samuel Molod of Escanaba, U. P. library consultant for the Michigan State Library, will give a short talk on the "Role of the Library in the Community" when the Carnegie Library here marks its 50th anniversary with an open house on Monday Sept. 21.

Members of the Escanaba Kiwanis and Rotary Clubs have been invited to visit the library after their dinner meetings that day, and Lions club members will go after their evening meeting.

The public is invited to visit the library during the open house, from 4 to 6 p. m. Booklets telling the history of the library will be distributed and light refreshments will be served.

No library work will be handled on the day of the observance.

Classrooms Opened

DETROIT (AP)—The first of 35 new mechanics classrooms, designed to keep dealer's service employees up on new methods and advances, was opened by General Motors Tuesday. The center here will train some 5,000 specialists annually. Others will be established throughout the country.

Latest Change:

Spell It de Noc, Says Geographic Names Board

The Michigan highway department today is preparing to take down the new Bay de Noquet signs erected last week between Escanaba and Gladstone and put up the old ones with the Bay de Noc spelling.

The action is the result of a report by the U. S. Board of Geographic Names that "de Noc" is the accepted and standardized spelling and should be continued.

Attention of the State Highway Department was directed to the discrepancy between the spelling on the state highway map and the road signs by Mrs. A. J. Carlton of Escanaba, names committee chairman of Lewis Cass Chapter, Daughters of the American Revolution.

On state highway maps the spelling is Bay de Noquet, on the road signs Bay de Noc.

Will Be Replaced

In the latest development F. C. Schwarzenberg, Escanaba, state highway traffic engineer in the U. P., was advised by the department's traffic control engineer in Lansing to "leave the original signs in place." Since the "de Noc" signs were already down

they will have to be replaced.

The Board of Geographic Names, Washington, D. C., traced the history of the development and derivation of de Noc place name.

"The original decision of this Board on June 5, 1894, concerning the naming of the smaller bay was Little Bay de Noquette. Four different spellings of the word in question were noted at that time.

Of Many Names

"On Nov. 5, 1904, the Board rendered a decision on Big Bay de Noc and Little Bay de Noc," because of the difference in spelling between the two bays. The Board at that time noted that the township was spelled Bay de Noc and that pronunciation was always "nooc" whether it applied to either of the bays or the township.

"There were various stories as to its origin, one being that it had been named by an unidentified Jesuit after Saint Enoc; that local usage as attested by Alfred C. Lane, then state geologist, the then mayor of Escanaba whose name does not appear, and Mr. P. P. Smith, then county clerk of Delta, was Bay de Noc.

"There was evidence of usage of the form Great Bay de Noquet, Big Bay de Noc, Great Bay des Noquets, Great Bay de Noquette, Great Bay d'Enoquet, Great Bay Denoquet, Bay de Noq, and Bay d'Enoc."

Spelling Varies

By its action of 1904 in establishing the spelling "deNoc" the Board "congratulated itself that it had faithfully performed its function in eliminating a very confused situation in arriving at a solution that provided a spelling which could hardly be mispronounced."

The Michigan Committee on Geographic Names concurred in not wishing to change the "de Noc" spelling, pointing out that that spelling has been "standardized" over a period of 45 years.

Note: Despite the recommendation "standardization" the spelling to this date varies greatly on railroad and highway maps and marine charts. The state highway department's usage of "de Noquet" on its maps and "de Noc" on roadside signs is an example.

Mrs. Peterson Of Cooks Dies At 55

Mrs. Albert P. Peterson, 55, Cooks, died unexpectedly last evening at Schoolcraft Memorial Hospital in Manistique. She had been in ill health since April.

Born June 9, 1898, in Paulding Center, Ohio, the former Maude Marie Coppock lived the greater part of her life in Flint and Lake City, Mich. She married Mr. Peterson in Manistique on Jan. 23, 1945.

Mrs. Peterson leaves her husband, two sons, Frank Evans of Utica, Mich., and Harry Evans of Los Angeles; a daughter, Mrs. Marjorie Stankovich of Detroit; two brothers, Harley Coppock of Brampton and Deloss Coppock of Gladstone; four sisters, Mrs. Gladys Hester of Flint, Mrs. Crystal Fisher of Alpena and Mrs. Edith Vanze of Leeland; and five grandchildren.

The body is at the Messier-Broullire Funeral Home in Manistique. Funeral arrangements are pending the arrival of relatives.

Poles Will Revolt Some Day, Refugee Airman Predicts

SEOUL (AP)—A young Polish interpreter who bolted from Communist control and was given U.S. sanctuary said today his people some day will rise in revolt against the Reds "but now is not the time."

Jan Hajdukiewicz, 28, told a news conference the Communist rulers of his homeland could not be overthrown "without outside help" even though 99 per cent of the Polish people oppose the Red regime.

Kidnaped, Reds Charge
Hajdukiewicz was a civilian interpreter for Polish members of the neutral nations inspection commission supervising the Korean truce. Wednesday he asked U.S. Col. Harold T. Babb for political asylum as a plane to carry him back to North Korea warmed up at Kanguung Air Base in East Korea.

His request was granted. Only an hour before the balding young Pole met newsmen in Seoul a Communist official at Pannunjom charged that he had been "kidnaped" by the U.S. Army.

The Polish delegate to the Neutral Nations Supervisory Commission did not demand the return of Hajdukiewicz but said a strong protest would be lodged.

Hajdukiewicz, wearing green U. S. Army dungarees, told his news conference he made his dramatic break because "I knew it was my last chance."

He said he believes his escape

will encourage others in Poland.

"The Polish government is based on fear," he said. "I didn't want to return to my country which has been subjugated by the Communist regime. I should like to go to the United States of America."

Speaking of his homeland, Hajdukiewicz said:

"... our industry is working only for war" against "the free world—The United States of America, against the Western states."

"Of course" there is an active underground operating against the Reds.

Asked if he thought Poland would help the free world in the event of war with Russia he replied: "I think so, if they are told about it in advance."

He said there is no food shortage in Poland but everything is expensive.

Hajdukiewicz said the Polish people were permitted to listen to Voice of America broadcasts but not to discuss them. He described Voice and Radio Free Europe broadcasts as "the only true news for us."

He said the Polish people believe war will break out soon and that the only way they will win liberty is through war.

Teachers Plan All-Wisconsin Dinner Oct. 1

The second All-Wisconsin dinner for Northern Michigan teachers who are graduates of Wisconsin colleges will be held in Escanaba Thursday, Oct. 1 in conjunction with the annual MEA conference.

Miss Margaret Kranstover, graduate of Milwaukee State, and Don Iverson, graduate of Stout Institute, are in charge of arrangements. Both teach in Escanaba public schools.

Approximately 150 U. P. teachers are expected. Last year about 15 Wisconsin colleges were represented at the dinner.

Principal speaker for the Wisconsin dinner will be L. E. Lueberg, assistant to the president at the University of Wisconsin.

J-C's Plan For U. P. Convention

Plans for the Upper Peninsula conference of the Junior Chamber of Commerce to be held in Escanaba Sept. 19-20 were discussed at a meeting of the Escanaba J-C's last night at the House of Ludington.

Herb Auer, president of the Michigan Junior Chamber of Commerce, will be the principal speaker at the convention.

Charles Stone, Lansing, of the Michigan division, American Dairy Association, was the guest speaker at the meeting Wednesday night.

He declared that the dairy industry in Michigan is one of the largest industries in the state.

Bill Meiers, chairman of the reflective tape program, reported that over 300 cars have been equipped with reflective bumper tape by the J-C program. He also reported that a program to provide reflective tape free for children's bicycles will be undertaken soon. He reported that it is the aim of the J-C's to put reflective tape on every bicycle in town as a safety measure.

Welfare Center Shows Substantial Growth

The Seventh Day Adventist Welfare Center at 1327 Sheridan Road, which distributes clothing and other items free of charge to anyone who needs them, has grown considerably during the last five weeks, C. R. Conger of Brampton, manager, declared this morning.

"I think the time is soon coming when we will be serving 200 people a month with 1,500 pieces of clothing," Conger said.

Average now is 150 persons helped per month with 1,000 pieces of clothing, Conger stated. In August, a slack month, almost 1,000 pieces of clothing were distributed, and September, the month in which school opens, is running far ahead of August.

At the beginning of August the center was open only two days a week. Now, because the call upon it has grown so, it opens four days a week, Monday through Thursday.

"We're operating now in three counties," Conger said, explaining that people from Marquette and Menominee Counties have come to the center for help.

Conger expressed his gratitude to the people of Escanaba who have, he said, so graciously given the center the things that it gives to others. These gifts, he said, help make life better for others.

Crowded For Space—The center is acting as a distributing agency for other things than clothes. It gave a gas stove to a family recently burned out.

Another item the center has is a chair which Conger says he is saving until he finds some aged person who is perhaps crippled and must sit around all the time. He said it is a wide chair with deep upholstery and a well-cushioned soft seat, and a stool.

With all this furniture, and the many clothes on hand, the center is crowded for space, Conger said.

Meats Get Cut This Week End

This will be a good weekend to buy meat, reports from the nation's food stores indicate.

Beef, pork and lamb prices generally will be lower. Sirloin steak is being trimmed to as much as 12 cents a pound in some stores, rib roast will be unchanged to 4 cents cheaper, pork chops will be down in selected localities by from 4 to 16 cents, and some retailers will cut leg of lamb prices by from 6 to 10 cents a pound.

Lamb chop prices will be lower in many areas.

One meat specialist forecasts that while beef and pork prices will be lower this weekend, they probably will go higher next week. He said wholesale prices of beef and pork rose this week and these increases should be reflected at the retail level shortly. On the other hand, lamb prices remained down this week in wholesale markets.

Prices of frying chickens will follow no set pattern this weekend. They'll be up four cents in some places and down several cents in others. Top grade large white eggs will be unchanged to as much as eight cents a dozen lower.

Nearly all fresh fruit and vegetable prices went up early this week in the wholesale markets. Produce men, running down the list of vegetables, picked beets, carrots, corn, onions, potatoes and summer squash as the best buys.

Wants To Ring Bells To Call Legislators

SACRAMENTO, Calif. (P)—Assembly Speaker James W. Silliman (R-Salinas) said he was thinking of installing a bell in each Assemblyman's office so they would be on time for business.

"Why don't we just blow the siren?" asked Assemblyman Francis Lindsay (R-Loomis).

"They'd all go to the basement," said Silliman.

Bear Numerous In Rock Area

ROCK—Both bear and hunters have been quite active in Rock and vicinity within the past several weeks. More bear are reported seen than any other year.

Ted Black at Osier shot a big mother bear last week. The bear were breaking all the apple trees in the orchard on the farm.

Seventeen-year-old Leslie Koski killed a bear back on the Bud Englund farm this past week.

Ed Dobel, Osier, goes out every evening to pick up the apples that have fallen during the day. One evening while he was picking, he heard a noise in the tree. Looking up, he saw a big bear in the tree. Quickly he jumped into his car and raced to the neighbor to come and shoot the intruder.

When they returned, the bear had climbed down and was heading for the woods. The shots missed him, but Mr. Dobel who lives alone, is hoping the shots scared the bear so he will not return.

Old Mossadegh Refuses To Eat

NEW YORK (P)—The New York Times said today that Iran's ex-Premier Mohammed Mossadegh, is hunger striking in his jail cell near Tehran. The Times said Mossadegh also demands to see a lawyer about drawing up a will.

Robert C. Doty, the Times correspondent in Tehran, quoted an "exceptionally well qualified government source" as saying Mossadegh made the threat after he was transferred from an undisclosed prison to the Saltanabad Army barracks near the Iranian capital. He reportedly protested the transfer, demanded that his captors "kill me now" and then announced his intention to refuse food.

The highly emotional old leader, who is in his 70s, faces charges of rebellion against the Shah. On Aug. 16, Mossadegh ignored a royal decree ousting him as Premier. Three days later a pro-royalist uprising toppled Mossadegh.

The actions of Mossadegh and his supporters are considered punishable by death by the present regime of Premier Maj. Gne. Fazlollah Zahedi.

County Library Is Considered At Marquette

Plans for establishment of a second U. P. county library to serve adults were concluded at Marquette Tuesday, Samuel Molod of Escanaba, U. P. Consultant for the Michigan State Library, reports.

A few weeks ago Marquette County was considering establishment of a county library to serve township schools, but this has now been changed so that the library will serve adults too, Molod, explained.

Menominee County is the only county in Upper Michigan which now has a county library, providing books, reference works, films and projectors, and records for adults in the rural areas, and it is very successful, the library consultant says.

"There is a strong feeling in Upper Michigan that too much is done for kids and not enough for adults, in library service," Molod noted. He said adults in the area are property owners and, when their children are grown, are inclined to feel more should be done for them.

The fact that the age level in Upper Michigan is comparatively high makes it important that libraries take a greater interest in adult education. In the past, Molod observed, libraries have been letting the other agencies take over this work. The library should be the cornerstone for adult education," he asserted.

Marquette, he said, hopes to establish a county library, not only to meet demands of older residents but to provide service to residents moving to suburban areas of the city.

About 25 counties in Michigan now have county libraries, Molod said. To establish such a service for adults, a county needs a population of 20,000, under state law, he pointed out.

The proposed county library in Marquette will not affect plans for establishment of an Upper Peninsula branch of the state li-

Cheboygan Girl Is Fair Queen

DETROIT (P)—An attractive Cheboygan area farm girl last night was hailed as Miss Michigan State Fair of 1953.

Brunette Miss Catherine Sewchuck, of Route One, Cheboygan, won the title in competition with 40 other state beauties—all winners of local beauty contests.

The new state beauty queen lists her hobbies as riding, boating, and swimming. Miss Sewchuck also professes to be an excellent cook.

With the State Fair drawing to a close—it ends Sunday—livestock judging and auctioning held sway yesterday.

A Detroit restaurant paid \$1.00 a pound for the fair's grand champion steer, an Aberdeen Angus, owned by the Raona Farms, of Williamston.

County Assessor System Can Equalize Property Valuations

CHARLES Schmidt, Escanaba city assessor, has made a valuable contribution to the perplexing and frustrating problem of equalization in city-county tax assessments.

The problem is perplexing because the revenue base for local government is the property tax and local governments need more funds. It is frustrating because the inequities that exist from township to township and particularly between townships and cities are apparent in themselves but there is no simple method to eliminate them.

Inequities not only exist from one township to another but also in many instances within individual townships. The reason for this is that assessing officers in the townships are political figures. They are elected on the basis of their popularity with the voters, not on the basis of their competence and training as assessing officers.

Schmidt advocates a county assessor system as a solution to the problem. Under this plan a single trained and qualified assessor would serve as the assessing officer for all of the property within the county. Such a system not only would assure equalization but it would also assure the utilization of the same standards for assessing township property that are utilized now in the cities.

As the situation stands now, Delta County has 14 assessors. Each utilizes his own rule of thumb or standards that he himself establishes. That they differ greatly in these standards is apparent to anyone who has made even a cursory examination of property valuations within the county.

Significantly and certainly incorrectly, the assessment determination is made on the township level but property taxes are of little importance to townships as a revenue source. The county itself, however, has a definite stake in property taxes and, of course, so do the cities and the schools.

If property valuations are increased in

Escanaba to meet the financial needs of the City of Escanaba and the Escanaba Public Schools without a proportionate increase in valuations of property in the townships, taxpayers of Escanaba automatically increase the percentage of county support that they bear. This is another frustrating part of the tax problem.

U. S. Gains Strength By Accepting Refugees

SINCE World War II the United States has admitted hundreds of thousands of political refugees from Europe, trying to help in the colossal work of making a new home for these tragic folk who walk the earth homeless and jobless.

The uprooting of these people is one of the saddest consequences of the war and the rise of the Russian system of Iron Curtain satellites. And inasmuch as the forces which produce this great floating mass of humanity are still at work, we cannot simply ride on what we have done in the past and say: "There, that's enough."

There are an estimated 30 million refugees and escapees throughout the world, almost 10 million in West Germany alone, where they have streamed through one of the few gaps in the Curtain. There and elsewhere about Europe these people have aggravated over-population problems that years ago became a serious matter.

Recognizing the continuing aspect of this crisis, President Eisenhower asked Congress to admit another 240,000 refugees above established immigration quotas—over the next two years.

Congress finally passed a modified version of this proposal, which calls for admission of 214,000 over three and a half years' time.

Only by listing the measure as a "must" for this session and exerting strong pressures through his congressional leaders did Mr. Eisenhower gain even this much of his goal. For the proposal encountered strong opposition from a coalition of southern Democrats and right-wing, midwestern Republicans.

The protest was led by Senator McCarran, Nevada Democrat, who evidently regards any foreigner as a contaminating influence in the American bloodstream, and would have us all forget that America was built by people of other lands. McCarran, a specialist in erecting roadblocks, was responsible more than any other man for the scaling down of the refugee total in the approved bill.

It is a pity that so much legislative weight is carried by men who, now that their own European ancestors have allowed them to claim America as their home, want to make this nation a sort of exclusive club for the Descendants of Early Immigrants.

Fortunately for our own self-respect as a country celebrated as a haven for the downtrodden, these voices did not prevail, though they clamored loud. By a thin margin we maintained our position before the world.

Questions and Answers

Q—The Constitution provides that one-third of the Senate's seats—32—will be filled by election every two years. How much above this quota have we gone in recent years, because of deaths and resignations?

A—Thirty-five Senators were elected in 1952, 34 in 1950. In 1954, 35 seats will be at stake—more if additional vacancies occur before then.

Q—Are all imported Mexican farm laborers illegal "wetbacks"?

A—No. Congress Aug. 1 extended the law authorizing controlled recruitment and importation of Mexican farm laborers. More than 197,000 were contracted for in 1952.

Q—How many public bills and joint resolutions did both houses pass and send to the President during the first session?

A—Two hundred ninety. The President signed 288 of them, making them public laws. He vetoed two public bills, one to repeal the excise tax on movie admissions and the other providing for an exception to District of Columbia zoning regulations.

Merry-Go-Round

By DREW PEARSON

WASHINGTON—Top Air Force engineers aren't saying anything about it publicly, but privately they believe the recent cutback in their heavy press program is the most shortsighted "economy" move so far adopted by Secretary of Defense Charlie Wilson.

Cutbacks in fighting planes always make headlines. But when the Air Force was ordered to cancel contracts for seven out of 17 superpowerful hydraulic airplane-making presses, there was hardly a ripple of protest.

These are the crucial, hard-to-build, 50,000-ton presses, first developed in Germany during the last war, which revolutionized aircraft developed in Germany during the last war, which revolutionized aircraft construction. Foolishly we let the Russians get these presses when they entered Germany after the war, and it was Russian possession of these presses which put its MIG production ahead of our Sabrejet production during the first part of the Korean War.

As a result of U. S. procrastination, we are still waiting to put our first superpress to work. Meanwhile, the Russians are known to have several already on the job—and many more in production. They stamp out airplanes wholesale in an assembly-line process.

Under the new Wilson "economy" directives, however, the United States is not only cutting its military-aircraft program—it's also cutting its ability to produce aircraft in quantity.

RUSSIA FORGES AHEAD

Ironically, these twin cuts coincide with two interesting announcements; one by Secretary of State Dulles to the American Legion that future Communist aggression might provoke war by the west; second by Defense Secretary Wilson, also to the Legion, that he wasn't cutting back the Air Force program.

Total cost of the original 17-press program was \$389,000,000. By reducing the goal to only 10 heavy machines, Secretary Wilson is saving at most \$100,000,000. But it takes at least two or three years to complete a single heavy press, and in the present atomic age it's doubtful the United States will have much time to prepare. Largest hydraulic presses now used in the U. S. A. exert only a puny 188,000 tons of pressure, are totally unfit to supply the tremendous force necessary to shape major aircraft frames. As a result most American airplanes are laboriously pieced together by hand. Result: Low production and high price.

In contrast with U. S. cutbacks, the Russians are moving ahead at top speed. The hydraulic-press program has a priority in the Soviet economy almost equal to their H-bomb program. Every day the Russians are moving ahead.

Note—"This whole thing is getting ridiculous," said a key Pentagon official. "Every day the State Department gets together with the Russians, and every day the Pentagon reduces our military power."

WASHINGTON WHIRL

Sen. Barry Goldwater of Arizona spends so much time at La Jolla beach near San Diego that Arizonians are wondering whether he's going to vote for water for Arizona or water for California. (Water is a fighting issue between these two states.)

Speaking at the San Diego Republican \$100-a-plate dinner the other day, Senator Goldwater's praise of Senator McCarthy brought louder applause than his references to President Eisenhower. . . . Don Johnson, the Michigan publisher and devoted crusader for a cancer cure, has just been appointed by Secretary Oveta Culp Hobby to the National Advisory Cancer Council—a good choice. . . . Secretary of Labor Durkin is fighting against some of the reactionaries the White House plans to appoint to the National Labor Relations Board. . . . a great friend of labor, Bishop Francis J. Haas, was lost to mankind the other day. Bishop Haas, famed labor mediator of the New Deal, was a tireless crusader against intolerance, particularly racial discrimination against Negro workers.

FDR used him to settle various labor disputes. . . . Maryland's Sen. Glenn Beall apparently doesn't agree with his GOP colleague, Sen. John Butler, over McCarthyism. Butler's election campaign was run by Senator McCarthy, despite which his colleague, Beall, inserted in the Congressional Record a sermon by Dr. C. Edward Berger tongue-lashing McCarthy. . . . incidentally, Senator McCarthy showed up at the American Legion convention in St. Louis dressed up in full Legion regalia. But when a reporter asked what post he belonged to, McCarthy had to take off his hat to see what post number was written on it. . . . McCarthy also complained about the Kleig lights shining in his eyes when he got up to speak. Then, as an afterthought, he added: "Of course, if this is on television, never mind turning off the light." . . . the Navy has chartered a fleet of 119 privately owned American ships to haul military cargo overseas, though the government already has a huge cargo fleet of its own lying idle in moth balls.

British Guiana Begins To Show Panic Under Communist Rule

By DANIEL JAMES

GEORGETOWN, British Guiana—(NEA)—The first Communist-led government in the Western Hemisphere has been in office for three and a half months in this British colony, and already there are signs of panic and chaos.

It is not a government, like Guatemala's in which Communists exert influence through others. It leading ministers are themselves Communists.

Why Communism selected as its first hemisphere victim this colony of 83,000 miles and 450,000 people is not clear. But a few facts about British Guiana may be enlightening.

British Guiana is the world's second largest producer of bauxite, an aluminum ore with numerous peacetime and wartime uses. It also mines gold and diamonds, and is believed to contain uranium and oil.

The colony is politically part of the British West Indies, which are about to unite in a Caribbean Federation. Communist-run British Guiana could, as part of that federation, create plenty of trouble in an area that touches U. S. interests at many points. The Caribbean, in fact, contains the so-called outer rim of our hemisphere defense bases.

Though English-speaking, British Guiana is geographically located in northern South America. From that position, it could have an influence on a continent wide open to nationalist and Communist agitation.

The leader of the British Guianese government, Dr. Cheddi B. Jagan, a dentist of East Indian origin who was educated at Northwestern University, frankly admitted his Communist sympathies to me in the first interview he has granted a U. S. newsmen since assuming office.

"The Communist movement champions the underdog, and I consider myself part of it," he said.

In a radio talk he frankly asserted: "I am a great admirer of the Soviet Union, Peoples China and the Peoples Democracies."

With views like these broadcast throughout British Guiana, no wonder many people are expressing concern.

There is, first, something of an exodus of people out of the colony. Emigration to North America

has increased 20 per cent in the past few months, according to Pan American World Airways, chief carrier of the passenger traffic.

British Guiana lost \$500,000 in new revenue, between January and May, because foreign exporters hesitate to ship to the colony. This will take a good slice out of a normal \$18 million budget.

Schools operated jointly for generations by church and government are being taken over. Along with it there is intensive indoctrination of youth by the government Peoples Progressive Party, the disguise under which the Communists operate.

Worst of all is the fear of imminent nationalization, which is causing business concerns to be wary of making new outlays and would-be investors to think twice before putting capital into British Guiana, I asked Dr. Jagan if he intended to nationalize, and he replied:

"Certainly. I'm a socialist, aren't I?"

Jagan would not admit that he is high on his nationalization list. But the Demerara Bauxite Co. Ltd., a subsidiary of Aluminum Co. of Canada which has a virtual monopoly, is reputed to be "sitting on the hottest seat in British Guiana."

An American girl born in Chicago is greatly responsible for introducing Communism into British Guiana. She is the former Janet Rosenberg, who was a member of the Young Communist League when she married Dr. Jagan in 1943. Jagan was then studying dentistry in Chicago. Soon after, she left with him for his country and helped found the Peoples Progressive Party.

The PPP holds 18 out of 24 seats in the House of Assembly, which it won in an election last April 27. Under the constitution, it was entitled to and got 6 out of 10 ministries. The rest are held by men appointed by Gov. Sir Alfred Savage.

Mrs. Jagan is Deputy Speaker of the House and PPP General Secretary. As an old party hand, she devotes most of her time to organizing and speaking. Unlike her husband, however, she answered my question about whether or not she is a Communist this way:

"That point I never answer."

She does admit that she is a Soviet sympathizer and has just returned from a trip behind the

Iron Curtain. No one I met in British Guiana doubts for one moment that she is a thoroughgoing Communist.

An unusual proportion of the PPP's leaders have made trips to Iron Curtain countries within the past two years. At least a half dozen have gone, and two are there now. Apart from the mystery of how so many trips are financed, there is the question why. Is the Cominform grooming these British Guianese Communists for special jobs elsewhere in the hemisphere?

The Peoples Progressive Party is not strictly a Communist organization. It is made up of non-Communists in the main, including some small businessmen. It calls itself "socialist" but is essentially a nationalist party led by Communists. Its main point is "national independence," meaning that it wants to break away from the Crown.

Since the people of British Guiana, like people everywhere, are ignorant of or dislike Communism, they would not have voted for the PPP had they known its leaders' true beliefs. The PPP acquired power because, first, it was the only real party in existence. Second, it had money. Third, it had excellent speakers and excellent propaganda.

The big explosion will come in British Guiana, say most observers, not over nationalization directly but over independence. Britain has the armed forces to put down any uprising. But independence is a slogan which could inflame the whole Caribbean. Not British Guiana alone, but all the West Indies, are at stake in the shaping struggle with Communism in a single colony.

Good Evening...

By CLINT DUNATHAN

MAN AND MESSAGE—Speaking in Detroit on Labor Day, former President Truman prefaced his political discussion with some comments of interest to unions, management, and the general public.

"I have heard that Senator Moody is leading an effort to set up a liberal daily newspaper in Detroit."

"I hope he succeeds," said he, "because it's about time this great city has a Democratic newspaper. When you think of it, it's an amazing thing that a great city like this—with its thousands of Democrats and union men—has to read newspapers that are for the most part pro-Republican and antiunion."

"But that's the way it is over most of the country. That's the way it is at home. But you can help change all that here. If you will get behind a liberal newspaper, and support it, you can make it a success."

MOLDY ACCUSATION—This is a familiar tune being played by Mr. Truman.

It is a moldy old accusation that he has voiced many times in the past. No doubt he will say it again. But repetition will not bring to it the ring of truth.

The apparent purpose of the charge that most newspapers in the United States are antiunion is to make labor believe it has but one friend—the Democrats, and only the "liberal" Democrats at that.

The newspapers need no defense against such an accusation, yet there may be some or many people who have the impression that unless a newspaper carries a Democrat label on its masthead it is antiunion.

PRINTING THE NEWS—For the benefit of those who may need further amplification of the subject we will point out the following facts:

1—The text of Mr. Truman's Labor Day speech in its entirety was carried by the Detroit newspapers Mr. Truman had described as "pro-Republican and antiunion."

2—These newspapers and many others across the land published pictures of Mr. Truman and other Democratic politicians and labor leaders. The Labor Day event was given the attention it deserved because of the wide news interest.

3—The smaller newspapers in their own home towns gave publicity to local Labor Day events and speeches. Union news today is treated by most newspapers fairly and accurately. No attempt is made to distort, color, or falsify news coverage.

Briefly, newspapers recognize their chief obligation is to inform the people—which includes all groups and sections of our society. And there are few newspapers that do not now have union shops.

FRIENDS OF LABOR—Many newspapers, particularly those in metropolitan areas, have contracts with employees represented by the Newspaper Guild.

Newspapers present information about business and industry, as well as information about the activities of union organizations. This does not make them antiunion.

Perhaps Mr. Truman, in his self-appointed role as a friend of labor, would welcome a situation in which America's newspapers would present only one side of any question or situation.

In such a newspaper as Mr. Truman envisages as most desirable, would the people find factual and unbiased reporting? Would they be informed of the "liberal" as well as the "conservative" viewpoint?

Would there be information concerning industry's vital role in our economy as well as the contributions of labor?

If the answer to any of the above questions is no, then Mr. Truman is not encouraging a newspaper enterprise, but is boosting former Senator Moody's smoldering political ambition.

THE LABOR VOTE—Organized labor knows its friends and its foes and in the past its members have used their franchise to good effect.

The majority of the voters in the United States (certainly some of them must have been from the ranks of labor) gave their vote to President Eisenhower last November.

From recent political developments it now appears that Mr. Truman and the Democrats, certainly those in Michigan, are intensifying their efforts to woo the labor vote. Perhaps Mr. Truman's attack on the Michigan press has no other significance.

No woman likes gossip, says the president of a woman's club. But every woman likes to listen to them.

The Doctor Says... New Methods Help In Some Serious Hypertension Cases

By EDWIN P. JORDAN, M. D. — Written for NEA Service

High blood pressure, or hypertension, is not caused by any single disease. The most important problem is to decide, if possible, what is the particular cause in each individual case and what can be done about it. In many cases, unfortunately, the origin of the high blood pressure is not known or cannot be traced—this is called essential hypertension.

Even for such kinds of hypertension, recent developments in treatment offer promise for at least some patients. For example, some patients have been given a diet from which not only the sodium contained in salt is removed, but most of the sodium in the other foods.

The low-sodium diet is rather complicated to prepare and is not too tasty, but good results in bringing about a drop in blood pressure have been reported. This treatment certainly will not answer the entire question of hypertension, but at least the use of "low-salt, low sodium"

diets in certain cases is valuable. The so-called rice diet is one of these low-sodium diets.

The use of tissue extracts is another promising line of attack. An operation called sympathectomy, in which certain nerves in the back near the spine are cut, has also been used. After these nerves are severed the blood vessels expand and are able to carry more blood and the blood pressure is lowered.

USED FOR YEARS

This form of treatment has now been in use for selected patients for a good many years and seems to be of real value. It is not suitable for all patients with hypertension.

One form of essential hypertension is known as "malignant" because in a few weeks or months it may progress so rapidly as to cause irreparable damage. In this variety of high blood pressure the most active measures are necessary without the least delay.

Hybrid Vegetables Promised In Future

By FRANK CAREY
AP Science Reporter

MADISON, Wis. (AP) — Hybridization, which revolutionized corn production, may soon be extended to various other vegetables, promising higher yields and quality, a University of Wisconsin horticulturist reported today.

Dr. W. H. Gabelman told the annual convention of the American Institute of Biological Sciences that prospects look good for growing hybrid onions, beets, carrots, celery and Swiss chard.

Corn Yield Boosted

A hybrid is a plant developed from two different varieties of the same vegetable.

Hybridization has meant tremendous increases in corn yield and quality, Gabelman declared.

The difficulty, in the case of other vegetables, has been in finding economical ways to cross-pollinate two different varieties of

Two Receive Awards For Saving Life In Pool At St. Joseph

ST. LOUIS (AP)—Phyllis Sahlin, 13, of Benton Harbor, Mich., and Mrs. Carol Ann Humbert, 14, of St. Joseph, Mich., today were announced as winners of the Red Cross Certificate of Merit.

The awarding of the Red Cross' highest honor for life-saving was revealed by the organization's mid-western area office here.

The two were honored for saving the life of Judy Mix, 14, of St. Joseph last June in the YWCA indoor pool in St. Joseph.

Judy had sunk to the bottom of the pool. Phyllis dove for her and brought her to the edge. Mrs. Humbert applied artificial respiration revived her in seven minutes.

The awards, recommended by the Berrien County Red Cross Chapter, were approved by the Red Cross National Awards Committee in Washington.

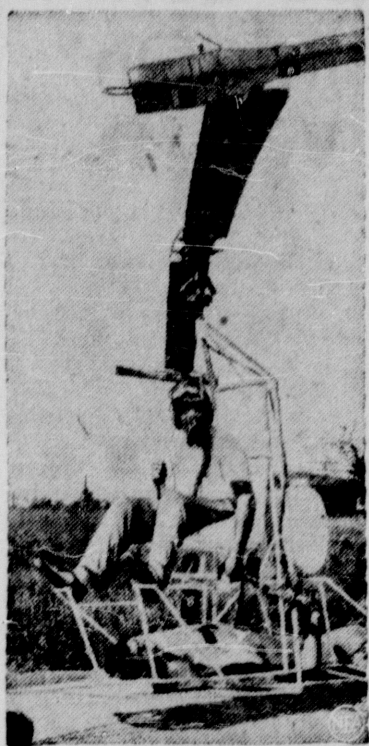

California Boys Are Bee Collectors

SAN PEDRO, Calif. (AP)—Bee-devoted housewives, fearful of an attack by a swarm of bees which hovered in their neighborhood, resorted to a 13-year-old boy, Jerry Waddle, for help.

The lad climbed a plum tree, put on a pair of leather gloves, and casually scraped the bees into a box. Meanwhile brother Billy, 16, trained the garden hose on the bees to keep them quiet.

This was the boys' fifth new swarm for their collection.

Enroll 27 Here As Skywatchers

Twenty-seven Escanaba young people of high school age, including eight girls, enrolled last night as members of a proposed ground observers corps for "Civil Defense in operation skywatch" at a meeting in City Hall.

The Air Defense Command has requested the immediate beginning of skywatching service, but additional volunteers are needed to operate on a 24-hour schedule, according to Glen S. Leonard, deputy director of Civil Defense in Escanaba.

"We should have about 300 volunteers for ground observer duty in Escanaba if we are to maintain the schedule recommended by the Air Force," Leonard said. "Those who enrolled last night said they would recruit others."

Oct. 7 has been set as the tentative date for the first training session for the ground observers corps volunteers. The meeting will be held in the evening in City Hall.

At last night's meeting three motion picture films were presented by A2/c A. L. McLellan of Green Bay, where the "filter center" for the ground observer corps is located. He also explained the procedure of organization.

Others in attendance were Paul Wohlen, Escanaba, Upper Peninsula coordinator for the Michigan Office of Civil Defense; and Leonard, who is supervising ground observer organization here as chief observer.

Clouse Boy Hurt; Struck By Truck

Robert Clouse, 11-year-old son of Mr. and Mrs. Percy Clouse of Groos, is in fair condition this morning in St. Francis Hospital, his doctor said, after he ran into the path of a vehicle Wednesday night about 7:15 on Groos Hill, the sheriff's department said.

Groos Hill is on Co. Rd. 426. Clouse's doctor said he suffered a cerebral concussion, a broken right arm, a severe contusion of the right elbow, severe contusions and abrasions to his head, and a possible skull fracture.

Donald Marvic, 1514 N. 16th St., driver of the truck which hit Clouse, told the sheriff's department that he was driving downhill and another truck was driving uphill. Two boys ran toward the back of one truck, and ran into Marvic's truck, he told the sheriff's department. Marvic drove the Clouse boy to the hospital.

The other boy was Jerry Erickson, son of Mr. and Mrs. Walter Erickson of Groos. He was not hurt, his mother said today.

Earthquake Rocks Island Of Cyprus; 30 Dead, 100 Injured

NICOSIA, Cyprus (AP)—An earthquake rocked the Paphos district of this British island off the southern coast of Turkey today. Police said about 30 persons were killed and 100 injured in various villages.

Southeast of Cyprus, Haifa and other points in northern Israel felt earth tremors on this first day of the Jewish New Year but no casualties or damage was reported. Police reports said houses in the Paphos district were damaged extensively. The quake disrupted telephone communications with the area.

Violent quakes in the eastern Mediterranean area devastated three Greek islands in the Ionian Sea a month ago, killing an estimated 1,000 persons.

Army Sent Troops Red Propaganda, McCarthy Claims

mittee, said he had: Called two witnesses for closed session questioning today about what McCarthy has termed Communist infiltration of Army civilian employes ranks. The witnesses' names were not disclosed in advance.

Ordered an inquiry into the promotion of an Army major, not named, who had been convicted in a case involving "unusual morals."

Hunts For Author

McCarthy said he had called on the Army to name, and produce for questioning, the author of the secret document intended for use in the training of intelligence officers. The document itself said 100 copies were distributed in January 1952, mostly in the Far East.

It bore a caption: "Psychological and cultural traits of Soviet Siberia." The preamble was signed "R. S. Bratton, colonel, general staff with troops deputy." The author of the bulk of the document was not identified.

McCarthy said he wants to question the author of such statements as these:

"The Soviet Communist code continues to honor the workers above all . . .

"Siberia in a social sense is rather similar to our Far West in the late 1800s . . . There is abundant opportunity for rapid advancement in the skilled trades and professions and a man is paid according to what he produces . . .

"Whatever the other restrictions of Soviet authoritarianism, one freedom is maintained: That is the freedom of self-improvement and advancement within the occupation."

An aide said the senator also had questioned whether confidence in intelligence reports from behind the Iron Curtain might be reasonably weakened by this statement in the document:

"Two million White Russian refugees and numbers of deserters and escapees cannot be taken as representative of the 200 millions who remain in the U. S. S. R."

Father Of Two Admits Slaying

PONTIAC (AP)—Donald V. O'Brian, 27, a father of two small children, confessed today the rape-slaying of Mrs. Hallie Perkins and the attack upon a 16-year-old Pontiac girl.

Prosecutor Frederick C. Ziem said a warrant charging O'Brian, a Pontiac gardener, with first-degree murder would be sought today.

O'Brian confessed in a formal statement to Ziem after he was arrested last night in connection with an assault upon a Pontiac woman.

The first two crimes led to a big manhunt in Oakland county. Ziem said the admitted slayer told him:

"I don't want to do it, but I can't help myself when I drink."

O'Brian said he had been drinking at Pontiac bars before each attack. He admitted attacking Mrs. Perkins, 55, whose body was found in a weed-infested vacant lot Aug. 15.

"I thought she was alive but unconscious when I left there," O'Brian told Ziem.

Ziem said O'Brian admitted covering Mrs. Perkins' body with boards after his brutal attack.

O'Brian, employed by a Bloomfield Hills gardening service, said he approached Mrs. Perkins and the 16-year-old girl on foot. He admitted using his victims' clothing to bind them during his attacks.

He also confessed to an assault on a woman.

O'Brian was arrested after an alleged assault upon Mrs. Mary Forgette, 45, as she was walking home from a neighborhood theater last night.

Favorite Tunesmith
Victim Of Drink, Has
No Home To Go To

CHERTSEY, England (AP)—Jimmy Campbell, the tunesmith who wrote the old favorite, "Show Me the Way to Go Home," turned up in court Wednesday with no home to go to.

Campbell, now 50, was charged with obtaining credit by fraud from a hotel.

His lawyer said the little Scot, whose real name is James Tyrre, has long since squandered the fortune he made writing songs and was a victim of drink—"a penniless, tragic figure."

In addition to his best known number, Campbell was co-writer of such favorites as "Let Me Call You Sweetheart," "Good Night, Sweetheart" and "Try a Little Tenderness."

The court put him on probation for three years on condition that he spend the next 12 months in a hospital—at state expense.

Three Convicted For Taking Photos Banned By Judge

(Continued From Page One)

He also contended that there was no obstruction of justice in a "mere click of the camera." He said the Canon of Ethics was not binding on the press, and asserted that the judges of the Cuyahoga County Common Pleas Court, as a group, had discussed the canon at a meeting earlier in the year, but had failed to adopt it.

John J. Mahon, assistant county prosecutor, argued that there had been "since last May" a rule in Judge Silbert's court that no courtroom pictures would be allowed. He declared it "was a reasonable order and a reasonable rule."

He said it was not necessary for the court to publish a rule in order to regulate conduct in a courtroom.

Judge Silbert, referring to Clifford, said it was a case of "open defiance." He said Gialmo was acting under orders and that "I might have done the same thing under those circumstances."

Because testimony failed to show Thomas knew of the picture ban, he was convicted only of obstructing and delaying the Aug. 20 proceedings.

The judge remarked that the only question was "whether the court made an order, whether it was reasonable, and whether it was violated."

He said "no elected official who is in his right mind gets into an argument with a newspaper," but "judges must have courage."

He declared that if the defendants felt there was an invasion of freedom of the press, they could have proceeded "in an orderly way" by filing a writ of prohibition.

Budget Cut Weeds Out
German Newspaper

BONN, Germany (AP)—The U. S. State Department has decided to halt publication of its official German language newspaper in Western Germany but to continue it in Berlin.

The \$7,200,000 cut by Congress in the U. S. High Commission budget was probably a major factor in the closing down of the newspaper. The paper costs about two million dollars a year to put out now.

Ninety-eight per cent of the world's fish catch comes from the northern hemisphere says the Twentieth Century Fund.

Wall Street

NEW YORK (AP)—The stock market declined today following two days of quiet steadiness.

The fall went to between one and two points at the outside in the case of a handful of issues. Most changes either way were fractional with minus signs predominating.

Volume was light at a rate in the neighborhood of Wednesday's 860,000 shares.

Railroads were lower along with steels and motors. The remainder of the market held steady or slightly mixed.

Lower stocks included New York Central, Illinois Central, U. S. Steel, General Motors, Zenith Radio, and Sinclair Oil.

U. S. government bonds were steady.

Spark Of Hope Left For 944 Missing On American POW List

WASHINGTON (AP)—A faint spark of hope went out from the Pentagon today to the next of kin of 944 American servicemen whose whereabouts are unknown since their reported capture by the Reds in Korea.

The Defense Department list will be made public beginning Friday 24 hours after teletypes are dispatched to the relatives of the men missing and unaccounted for.

The list includes 610 from the Army, 312 from the Air Force, 19 from the Marines and 3 from the Navy. The Communists were asked yesterday to account for them.

The list of missing men was based on Communist propaganda reports, the word of their exchanged buddies, private letters and other sources.

The Communists have not reported that any of the men escaped or died in captivity.

The Pentagon said Wednesday the next of kin of the 944 Americans are being sent this message: "The secretary of the (appropriate department) has asked me to inform you that the name of (the missing serviceman) was included in a list of servicemen who, there is reason to believe, were at one time in Communist custody but for whom no accounting has yet been made. This list has been presented to the Communists with an urgent request for such an accounting."

"All possible efforts are being made to obtain information regarding (the serviceman's name) and in the event any is received, it will be furnished to you promptly without request by you."

School Enrollment Increases

Supt. Victor Borga announced this week that the enrollment at the Catherine Bonifas school is 156, an increase of 27 over last year's enrollment. The ninth grade has been added and there are three additional teachers on the staff.

Roy Hivola, a full time teacher, is teaching English and history in the secondary level; Mrs. Eva Boudreau is in charge of the kindergarten, which meets only in the mornings; and Peter Reque will instruct in music on Tuesdays.

The hot lunch program also started this week with 110 students participating. Mrs. Nora Lester is the hot lunch cook again this year.

In Freak Accident

Ray Harris is a patient at the Schoorcraft Memorial Hospital in Manistique as the result of an accident Thursday morning while enroute to Isabella to pick up pupils coming to the Garden school. After the motor on his bus failed Mr. Harris sought to locate the cause of the trouble and in so doing got his left hand entangled in the fan belt. The resulting injury necessitated the amputation of two fingers at the first joint.

Later, as the bus was being brought back to town, the motor burned out as the driver did not know the fan belt was off.

Ministers Fired
SEOUL (AP)—President Syngman Rhee fired two Cabinet ministers today on charges of failing to carry out their duties. A government spokesman said the dismissals were in connection with "unjustified contributions" of food and money sought in rural South Korea. The two were Home Minister Chin Hun Shik and Minister of Agriculture and Forestry Shin Joon Mok.

Shoe Revives Search
For Fishermen Lost
On Soo, Ont., Flight

SAULT STE. MARIE (AP)—A shoe found by a woman tourist had searchers out again today in hopes of finding some trace of two lost Detroit brothers.

The pair, Walter and Harry Butler, disappeared Aug. 12 on a flight from Sault Ste. Marie, Ont., to Jamestown, Ont., where they were going for a fishing trip.

The shoe was found near Batchewana Bay on Lake Superior, and Mrs. Harry Butler said it was one worn by her brother-in-law the day he and her husband disappeared on the 250-mile plane trip.

A patrol boat and fishing boats in the Batchewana Bay area were alerted by Canadian authorities to watch for signs of the missing plane and the men.

When The Quints Were Babies: 3

World Beat A Path To
Ontario To See Them

CALLANDER, Ont., was just a dot on the map on the shores of Lake Nipissing before the birth of the Dionne quintuplets put it in the spotlight.

Then the world beat a path through its streets to the Dr. Dafoe Hospital, which the Province of Ontario built on the outskirts of town near the house where the quintuplets were born.

As the gates opened for visiting hours, eager throngs (like the ones in **top left** photo, taken in 1935) rushed pell mell for the nursery for a glimpse of the quintuplets. The word of Dr. Dafoe was law as to whether they could be seen at specified times and often crowds were turned away if the babies had colds or were sleeping.

Visitors could see the quintuplets at play—perhaps on a bobsled like the one at **bottom left**, into which they were bundled for a romp in the snow in 1936.

But what the visitors couldn't see was the quintuplets having their own private fun, such as romping (**right photo**) with the twinkly-eyed man who played such a vital role in their lives, the late Dr. Allan Dafoe.

NATIONAL FOOD STORES BIG "ROUND UP" Sale!

BABY BEEF

National, in order to help the cattle raisers and farmers have purchased a large supply of these grass-fed, fine young beef. Due to an abnormal seasonal run of young beef, there is an over supply of them on the markets today. National arranged for a special shipment of young beef and are featuring them in National Markets this week at the lowest prices in many a season. Think not? Then look at these ridiculously low prices on baby beef, tender lean roasts, steaks and other cuts, while supplies last.

National will also continue, as in the past, to carry a full stock of all cuts of U. S. graded "Choice" beef at all times.

Missouri Synod To Boost Budget

ST. LOUIS (AP)—District representatives of the Lutheran Church-Missouri Synod have received recommendations for a budget of \$8,275,000 for the next fiscal year, about 30 per cent higher than any in the church's history.

The recommendations for the fiscal year starting next Feb. 1 were worked out earlier this week by the church's 15-member board of directors.

Dr. Lawrence B. Meyer, the synod planning counselor said original budget requests totaled 9 1/2 million dollars. The board's recommendations will be presented at a meeting of district and fiscal representatives of the church's 32 districts in the United States and Canada.

The higher budget, Dr. Meyer said, "will constitute a real challenge to the people of the church to carry the gospel of Christ, which is the only real solution to our most pressing problems today, to the utmost parts of the earth. We have confidence our people will accept the challenge."

Fairport

Celebrates Birthday

FAIRPORT—Jonie Lou Peterson, daughter of Mr. and Mrs. Gordon Peterson, celebrated her sixteenth birthday Monday evening with a party held at her home. Games and dancing were enjoyed after which a lunch was served. A decorated cake centered the party table. Miss Peterson received many nice gifts. Tiny Cancer Organism Isolated By Science

ROME (AP)—An American research group pictured cancer as an infectious disease, like tuberculosis or syphilis, caused by a tiny organism.

Presenting a series of papers to the sixth International Congress of Microbiology, the group claimed to have isolated the micro-organism.

Its members said they have obtained an anti-serum from bodies of animals infected with the disease and that the anti-serum weakens and sometimes destroys the cancer-causing organism.

Chicago School Head Defines Teachers' Job

CHICAGO (AP)—Today was the first day of school for Chicago's thousands of children and the new superintendent defined the teachers' job as:

"It is our responsibility to help all the children—the happy, sad, boisterous, glad and good ones—and all the lovely bad ones."

Benjamin C. Willis, formerly of Buffalo, N. Y., the new top administrator of the school system, addressed the teachers over WBEZ, the Board of Education radio station.

Throat Tumor Fatal To Iowa Politician

DES MOINES, Iowa (AP)—George Allison Wilson, 69, whose long political career included two terms as Iowa governor and one as U.S. senator, died Tuesday night.

Cause of death was listed as a malignant tumor of the throat, a recurrence of an old tumor for which Wilson had undergone operations in 1944, while a member of the Senate. His health had been precarious since the 1944 operations.

While in the Senate, Wilson was a Republican member of the Agriculture, Armed Services and Small Business committees. He was defeated in his bid for re-election in 1948 by Sen. Gillette (D-Iowa).

SINCE 1893

Frederick-James FURS

16-18 North 4th Street
Minneapolis

The reports were read by Dr. Virginia Wuerthele-Case, Dr. Eleanor Alexander-Jackson, Dr. W. L. Smith, and Dr. G. A. Clark, all associated with the Presbyterian Hospital, Newark, N. J.

They said their study of cancer induced in white mice and guinea pigs "has led to the concept that cancer does not consist of a localized tumor alone."

Instead, they pictured it as a generalized disease caused by an organism in the human blood stream. It is present in almost all animal life, including human beings, the group declared.

Generally it is held in check by immune bodies built up by the individual tumors and other signs of cancer appear when the balance is destroyed by irritations or other outside causes, the papers said.

The work is admittedly preliminary in nature, and some of the other scientists attending the session were inclined to look upon the report with considerable reserve.

Dr. Alexander-Jackson termed the work "highly preliminary in nature."

Bandits Make Haul Of \$70,000 In Furs

NEW YORK (AP)—Three bandits held up a fur company Tuesday, leisurely spent an hour selecting \$70,000 in choice furs and, after they fled, arranged to have a Western Union messenger free their victims.

The well-dressed trio sauntered into the Philip Buchberg Fur Corp., tied up three employees, picked the furs and fled with their loot plus \$950 cash taken from the employees.

Just as the employees managed to untie themselves, a Western Union messenger appeared to "pick up a message." Police said the robbers put in the call, apparently to make sure their victims would not be tied up too long.

Great Lakes Raises Pay Of Bus Drivers

DETROIT (AP)—Great Lakes Greyhound Lines announced union ratification of an eight cents an hour pay increase for its AFL bus drivers.

A total of 1,100 Michigan drivers are affected. The three-year contract calls for an additional four cents an hour boost in each of 1954 and 1955.

The company said the terms were ratified by vote of 13,000 drivers in 40 states.

Catherine Bonifas School Receives Play Equipment

GARDEN—Students at the Catherine Bonifas school are eagerly awaiting installation of new playground equipment which arrived this week. This equipment was purchased by the Garden PTA from the proceeds of the sale of last year's Garden Community Birthday Calendar. The sale of calendars will again be undertaken this year in order to purchase more playground equipment.

A special meeting of the PTA Garden Peninsula Birthday Calendar committee was called Wednesday evening to map out territory for the sale of calendars and listings. This year the entire Garden peninsula will be canvassed and the area has been divided into districts to be covered by the various committees.

When re-using oil for deep frying, add a small amount of fresh oil to replace that used in previous frying. To clarify oil after frying, just add two or three quartered peeled raw potatoes to the oil and heat gradually; fry the potatoes until well browned, then cool the oil strain it and store in the refrigerator until needed.

Circus Theme Features Fun Day At Escanaba Country Club

The Escanaba Golf and Country Club was transformed into a colorful and attractive circus yesterday for the annual Fun Day for women of the club and their guests.

Circus flags decorated the grounds and the exterior of the club house and pro shop. A circus ring was at the first tee and the players teed off under the direction of the ring-master, Mrs. M. H. Garrard Jr.

Life-size posters made by Mrs. Robert Owen, who was in charge of the decorations, depicted the Fat Lady, Strong Man, Lady Acrobat, and other stellar attractions.

The Big Top

The shelter house at the 9th tee was transformed into the Big Top. The circus performers presented their acts there with bleachers for the spectators and refreshments were served in true circus style.

The circus parade at 5:30 led by the Tin-pan Band was from the 9th tee to the club house.

The dinner which followed golf and bridge was served buffet style with arrangements under the supervision of Mrs. Donald LeMire and her committee. The buffet table was centered with a miniature circus in detail and the smaller tables were centered with circus figures.

Costume Prizes

Mrs. Harry Hogan and Mrs. W. J. Lavolette in a horse costume and Mrs. Dana R. Peck as a trained seal received prizes for the most original costumes. Mrs. Fred W. Swank was presented with a prize for being the most enthusiastic person at the party and Mrs. H. J. Hickenpahl, Mrs. Robert O. Losse and Mrs. James G. Ward Jr. for being the most entertaining during the afternoon.

Mrs. Oliver Christiansen received the championship cup in golf for the day. Other prizes were won by Mrs. Donald LeMire, Mrs. Paul A. Wohlen and Mrs. John A. Lemmer. In bridge the awards went to Mrs. Fred Earle, Mrs. Harry Needham and Mrs. G. W. Jackson.

Informal entertainment followed the dinner.

From Dallas come these cottons with an air of autumn. These season spanners start with cotton tweed suit (left) that has black velvety stripes on the neat little jacket. Suit is completely washable. A second cotton tweed suit (center) has vest with multi-stripe woven pattern. It is cut away at front just like jacket. Fitted cardigan of black jersey (right) has Peter Pan collar and cuffs of cotton tweed. It's worn over sleeveless cotton dress. All three come in dark colors particularly suited to the first days of fall. These clothes are right for the business girl in town; all are washable.—By Gaile Dugas, NEA Woman's Editor.

Boy Tanks Student Investigated By G-2

ATLANTA (AP)—When the chief of Army Field Forces at Fort Monroe, Va., received a letter from Atlanta, he called for intel-

ligence officers to investigate because, among other things, it said: "Will you please explain D.U.K. W., T-172E, M-38, A-1 and M-46. What about the Walker Bulldog tanks and performance of the Quack, Weasel and Greyhound?"

G-2 went to work and found the writer was no enemy agent seeking information on American equipment but 13-year-old Arnold Gershon, son of an Atlanta insurance man and a keen student of tanks and other military gear.

It also developed that most of the information he asked is a matter of public record, anyway, so Arnold got his facts with G-2 okay.

Miss Thompson Is On Her Toes

Miss Thompson has a great deal of responsibility to you . . . to your children . . . to your community. She's a school teacher. Every day she influences the citizens of tomorrow. She has to be on her toes. She has to have answers to hundreds of questions. She must know about current events as well as facts in the text books she uses. That is why she reads her daily newspaper. In it she finds the facts about *what* took place, plus qualified opinions about *why* it took place and what should be *done* about it. Her daily newspaper is one of the principal reasons she is a match for the youngsters who greet her every day with unexpected questions and observations. Her newspaper notifies her of lectures as well as meetings. It gives freely of its space for telling the community about the play her students are presenting . . . the special activities in which she is interested . . . new books which will assist her in her work. Yes, Miss Thompson is molding tomorrow's citizens, but she couldn't do it without her newspaper. In fact her daily newspaper is her every day assistant—as it is yours.

Editors Overlooked Monotonous Story

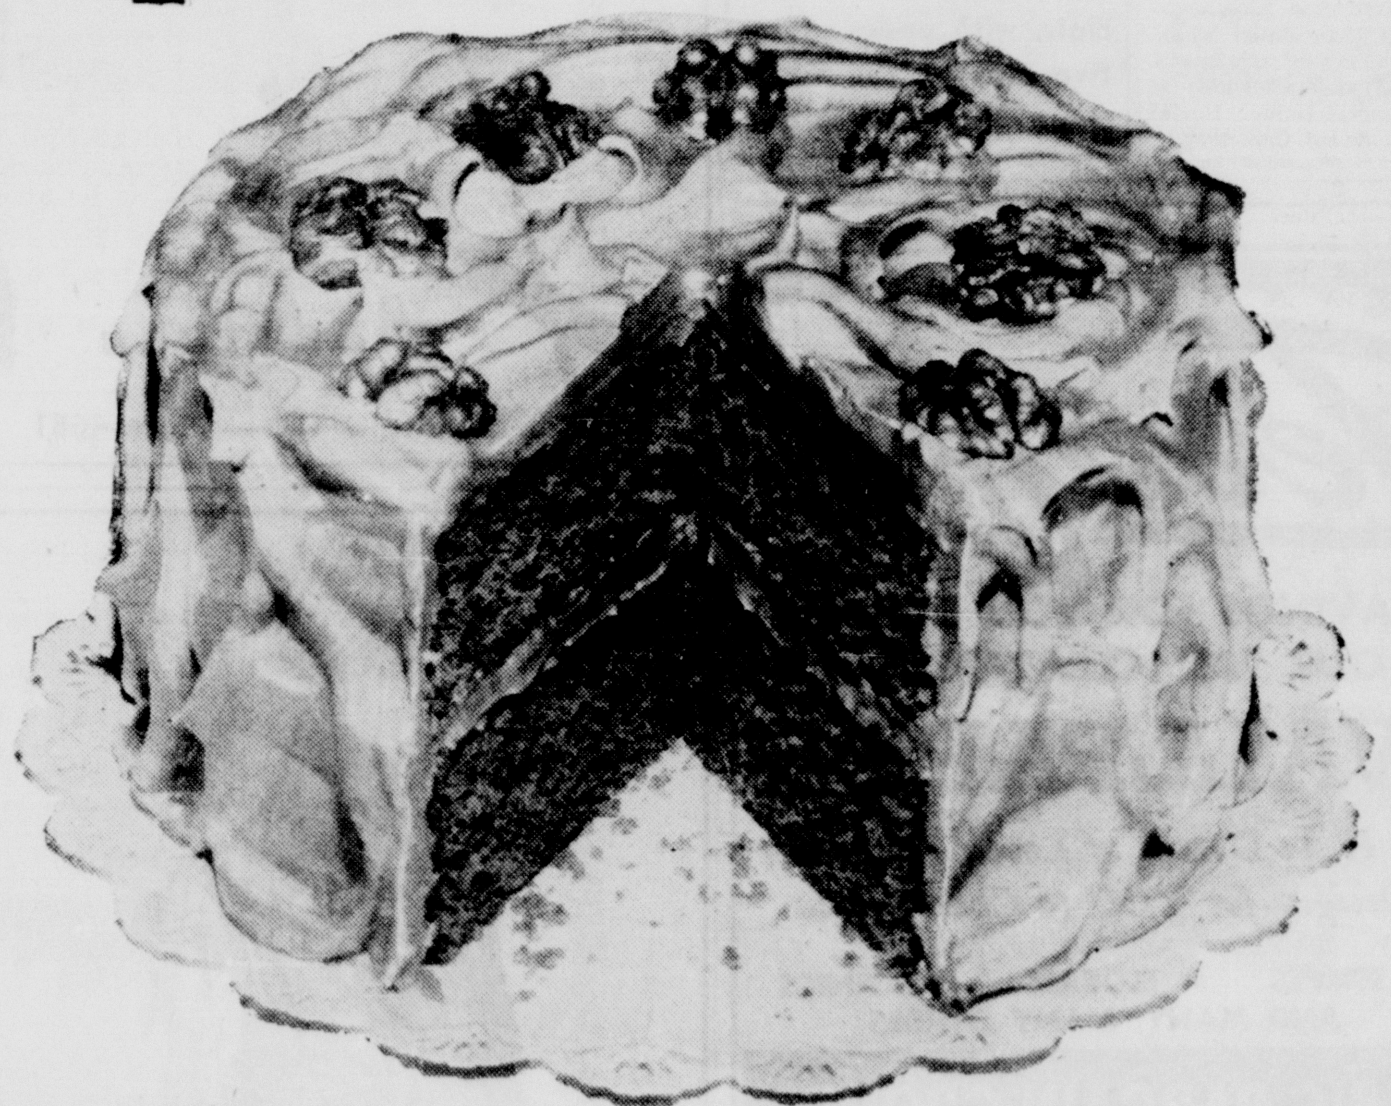

NORTON, Kan. (AP)—How closely do people read their newspapers? The Norton Daily Telegram ran the same small story, on Charles Lindbergh, in seven consecutive issues, before a reader piped up.

The editors noted wryly they'd have liked to describe the whole business as a readers' test—but admitted they hadn't noticed the repetition themselves.

NEW Duncan Hines Spice Cake Mix

"In a spice cake, the artful blending of the spices is all-important," says Duncan Hines, America's foremost authority on good eating. "A pinch of one spice and just a suspicion of another can work wonders. But you can't guess—you've got to know."

"Now my new Duncan Hines Spice Cake Mix takes the guesswork out of making spice cakes for you. Carefully chosen spices have been expertly blended right in the mix. All

you add is water and fresh eggs for a perfectly delicious cake!

"One of the secrets of fine baking is the use of strictly fresh eggs. No good cook would think of using dried eggs, and yet factory-dried powdered eggs are the *only* kind that can be put 'right into' a cake mix package. That's why I ask you to add your own fresh eggs to my mixes."

"And that's why—when you use Duncan Hines Cake Mix and your own fresh eggs—you're guaranteed a fresher, bigger cake—better in appearance, freshness and flavor . . . or your money back."

Governor Visits Rotarians Here

The three priceless ingredients of Rotary are its objects, service and honor and integrity, Harry Meyer, Shawano, Wis., district governor of Rotary International told members of the Gladstone club Tuesday when he made his official visit to the local club.

Services which include club, community, vocational and international are highly important and the speaker suggested the proposed Gladstone Community Hospital as the type of project which the club should foster. He urged the building of international goodwill and understanding for today fast planes and ships "have shrunk our oceans."

He cited the study scholarships available under the Rotary Foundation as a means of promoting international understanding.

Governor Meyer told of the phenomenal growth of Rotary throughout the world and declared the period from 1945 to 1953 was a new era in Rotary.

Duane Peterson, Gladstone high school senior, is the current student guest.

Other guests at the meeting were Dr. Alex MacLennan, Pasadena, Calif.; Dr. John Lown Sr., and son John, Coopersville, Mich.; formerly of Garden, and Tom Beaton Jr., Escanaba.

Study Club To Meet At Blaney

The Study Club will have its first meeting of the fall season on Monday when members visit Blaney Park.

Medals Honor 5 Hero Marines

WASHINGTON (AP)—Relatives of five Marines who died heroes' deaths in Korea came today to Washington to receive from Vice President Nixon Medals of Honor awarded the men for their valor.

The Marine Corps commandant, Gen. Lemuel C. Shepherd, invited to the ceremony at Marine barracks here retired Army Gen. Lucius D. Clay, former Allied commander in Germany and a friend of 2nd Lt. Sherrod Emerson Skinner of East Lansing, Mich., one of the five men to receive the posthumous award, the highest decoration of the nation.

Skinner was a forward artillery observer. In the action which brought his death he was wounded twice as he left a bunker to direct the fire of his men. Ammunition ran out and the enemy started to overrun the position.

Skinner told his men to pretend they were dead. A grenade rolled into the midst of the group. The wounded Skinner flung himself on the grenade, blanketing the force of its explosion. He saved the men but died himself.

Others honored today were S. Sgt. William E. Shuck Jr., of Waukegan, Ill.; S. Sgt. Lewis G. Watkins of Seneca, S. C.; Pfc. John D. Kelly of Homestead, Pa., and Pvt. Jack William Kelso, Fresno, Calif.

Tale Of The Ten Old Ones Of Chodo

For more than two years a vital UN "listening post," Chodo Island, some 80 miles below the Yalu River, off the coast of North Korea, today is the home of 10 people, all over 60, all tired or sick. They, alone of 4000 civilians on Chodo, chose to remain when, following the Korean truce, the island was abandoned by UN forces. When with drawing, allied forces raided their own stores to leave food, blankets, small comforts such as cigarettes for the Old Ones. Cut off from further supplies by the truce demarcation line, the oldsters wait for death or Communist occupation. They care little which comes first—for there's only a little time to go. (Exclusive NEA photos by Lt. Bev Gillespie, RCN.)

Last of radar equipment and USAF personnel leave Chodo Island aboard LST 1073.

"Too old to worry"—a little food—a few cigarettes—

—and her coffin. Mrs. Lee, 77, says, "First the Nippons came. Then you came. Now the Communists come. It makes little difference to one my age."

Riding lights, right, mark LST 1073, as Royal Canadian navy and USAF demolition teams destroy beaches, installations, in fiery farewell to Chodo.

ser returned Monday from Milwaukee where they attended the wedding of a niece Saturday.

Weekend guests at the home of Mrs. Fred LeBresh and daughters, Carolyn and Violet LeBresh, were Mr. and Mrs. Albert Seully and sons, Dennis and Brean, of Chicago.

Miss Enid Norden of Detroit arrived Saturday to visit at the home of Mr. and Mrs. Ray LeRoux and with other relatives. She left Monday accompanied by her father, Henry Norden, for Bremerton, Wash., where they will visit with Harry Norden, a former Perkins resident.

Mr. and Mrs. Meddie LeBresh and family of Cooks visited at the home of Mrs. Fred LeBresh Sunday.

Mr. and Mrs. Gus Kline Jr., entertained friends at their cottage on Garth Shores Monday. Guests were Mr. and Mrs. Earl Bowen

and son of Chicago, Mr. and Mrs. Bill Hall and Mr. and Mrs. Art Stevenson Sr., of Perkins.

Miss Lois Sterling of Grand Rapids was a guest of Miss Ann Kline over the weekend.

Rev. Gilbert Neurohr and his mother, Mrs. Fred Neurohr Sr., motored to Milwaukee and Kenosha, Wis., for Labor Day weekend. Rev. Neurohr returned to St. Francis Major Seminary at Milwaukee to continue his studies.

Guests over the holiday weekend at the Joseph Arvey home were Mrs. Ray Collins of Glad-

stone; Mr. and Mrs. Jay Melind and family, Mr. and Mrs. Albert Santeler and family and Mr. and Mrs. Laurence Cartwright of Chicago; Mrs. Richard Cartwright, Mr. and Mrs. Kenneth Minor and family and Mr. and Mrs. Alfred Arvey and family of Escanaba and Mr. and Mrs. Roy Neal and family of Green Bay.

Zeph Arvey spent the weekend at Milwaukee with his daughters, and he also attended three Braves baseball games.

Mountain Climber's Body Preserved In Glacier Since 1906

VIENNA (AP)—A man who died on July 13, 1906, was buried today in a mountain cemetery in the Austrian Province of Carinthia.

The population of the Village of Heiligenblut was joined at the graveside by four retired mountain guides, aged 75 to 80.

Forty-seven years ago, they searched the dangerous Pfandler chartenkees glacier in a futile effort to find a colleague, Kajetan Schweighofer, who had disappeared on a climbing tour.

A week ago, a tourist wandering along the glacier crest found the mummified corpse of a young man

in well-preserved mountain garb. Police established his identity by a key to a mountain hut found in a pocket.

Marked with the number 1352, it had been given to Schweighofer early in this century.

Alpine experts said the glacier which engulfed its victim long ago had gradually withdrawn, freeing Schweighofer's body from its icy tomb.

New Peace Move

BELGRADE, Yugoslavia (AP)—Yugoslavia studied a new peace overture today from the Soviet bloc with which she broke in 1948. Bulgaria asked permission to send an ambassador to Belgrade for the first time since 1950.

Postal Employees Get Treat For Carefulness

OKLAHOMA CITY (AP)—Oklahoma City Post Office employees received a chuckle from a package which arrived here from San Antonio.

Attached to the outside was a transparent bag containing oatmeal cookies and a note reading: "Last Christmas I mailed a doll, insured for \$25, and the doll was broken when it arrived. They would only pay me \$5 for the broken doll, so please handle this package with care—it isn't insured. And help yourself to a cookie."

St. Joe, Escanaba Make Home Grid Stands

Stambaugh, Green Bay To Provide Opposition

The St. Joe Trojans and the Escanaba Eskymos make home grid stands this weekend with their opposition making their first appearances in this city.

The Trojans will entertain the Stambaugh Hilltoppers at Memorial Field at 8:30 Friday night. The Eskymos inaugurate their Green Bay West-East series by hosting the West Wildcats Saturday afternoon at 2.

Gladstone returns to its home field Saturday against the Munising Mustangs and Bark River plays its home opener Friday afternoon at 1:30 against the Rock Little Giants.

At Manistique, a patched up schedule will have the Emeralds entertaining the Newberry Indians Saturday night.

Three weekend games were cut down by polio. Canceled were games between Ishpeming and Soo, Negaunee and Manistique and Newberry and Marquette. Three games were also wiped out by polio last weekend.

Sault Ste. Marie Blue Devils, Iron River Redskins and the Ontonagon Polar Bears are setting the pace as the young U. P. grid season rolled into its third week.

The Soo and Iron River topped Class B gridders with two wins apiece, while Ontonagon leads Class C, also with two across the board.

Ironwood will help to answer a U. P. grid question this week when the Red Devils swing into action against Duluth Denfeld, while the Menominee Maroons, defending U. P. champions, after being held to a 7-7 tie last week by Eau Claire, will swing into peninsula competition against Kingsford here Saturday night.

Another Dickinson County team, Iron Mountain, will play at Stephenson Friday night. It will be the opener for the Mountaineers

entertaining the Newberry Indians Saturday night.

Grid Notes

CHICAGO — Midwest football briefs:

Ohio State — Three fullbacks may be unable to take part in the buckeye workout scrimmage Friday. Bob Watkins, Jack Gibbs and Jack Augustine all have been sidelined by injuries.

Illinois — Injuries are plaguing the Illini. Among those who sat out Wednesday's offensive drill were halfback J. C. Caroline, ends Dean Willman, Steve Neseck and Fran Hoffman and guard Ron Yochem.

Michigan State — Jimmy Ellis, who played two years in the Spartans defensive platoon, displayed sparkling running ability. He broke away three times for touchdowns.

Michigan — Dean Ludwig, junior center, was injured in practice Tuesday. He was in University Hospital Wednesday with a head injury, but it is not yet known how serious the blow may be.

Purdue — Ed Neves, sophomore quarterback, tossed several fine passes for the Boilermaker third unit Wednesday.

Wisconsin — The Badger squad has been cut to 44 members by illness, draft calls and injuries.

Minnesota — Coach Wes Fessler moved Mel Holme, Stambaugh, Mich., senior, up to the fullback post.

Notre Dame — The Irish called off Wednesday afternoon's drill because of too many minor injuries. Among the injured are halfback Joe Heap, fullback Neil Worden and halfback Johnny Latner.

RECALL CATCHER

ST. LOUIS — The New York Giants have recalled catcher Ray Katt from Minneapolis at the close of the American Association season Sunday.

Loss Of Key Players Will Hurt Wisconsin

By CHRIS EDMONDS

MADISON, Wis. — Unless Ivy Williamson is a genuine magician, Wisconsin's Big Ten co-champions are in for a far from fat football season this fall.

Williamson pulled a quarterback out of the hat a year ago and the kid — 19-year-old Jim Haluska — led the Badgers to a tie with Purdue for the conference crown and a trip to the Rose Bowl.

Haluska broke a leg playing baseball this summer and is out for the year. That leaves sophomore Jim Miller and seniors Gust Vergetis and Glenn Wilson contending for the signal caller's slot. Miller at the moment has the edge.

"It looks like a slim year, but we're not resigned to accepting the second division," says Williamson.

Aside from quarterback, Williamson has his backfield about set. Alan (The Horse) Ameche, one of the Big Ten's hardest hitting runners as a sophomore last fall, will go at fullback and as a linebacker on defense, with co-captain Roger Dornburg and Jerry Witt manning the halfbacks both ways.

The Badgers may be hurting at the ends, too, although lettermen Ron Locklin and Norb Esser are available. Lost, though, probably for the year, are big Don Voss and co-captain Jerry Wuhrmann, both with knee injuries.

A pair of 200-pound veterans, Clarence Stensby and Mark Hoegh, are available at the tackles. The guards likely will be John Dixon, a standout linebacker a year ago, and Ron Roberts. At center is Gary Messner, 190-pound junior. Neither Messner nor Roberts won major letters in 1952.

Williamson plans to use Ameche, Messner and Dixon as linebackers.

TRI COUNTY LEAGUE CHAMPIONS — The Bark River baseball team posted a double championship in the Tri County League this season, winning the regular team title and the play-off crown as well. The Barks ran up a 13-1 season record and added three victories in the playoffs. The season banquet was given by Tom Swift last week and individual trophies were presented to each team member. Pictured above, front row, left to right: Polley Belanger, groundskeeper, Dick Douglas, Leo Knauf, Jim Greenwood, manager Joe Rademacher, Roy LaValley, Wally Flath, Dave Kwarciany and batboy Rodney Greenwood. Second row: Ding DeGrand, Louie Dubord, Don Paulin, Harold Kleiman, Wayne Erickson, Ben Kleiman, Ernie LaChapelle and Pete Kasbohm. Shuffle Lineup, Stress Pass Defense In Escanaba Eskymo Football Camp This Week

Two linemen and three backs were promoted to first string berths this week as the Escanaba Eskymos were sent through strenuous defensive drills by Coach Joe Milokna in preparation for the invasion of Green Bay last Friday night.

In Green Bay, Coach F. L. (Frosty) Fezacca is concerned with a rebuilding job on the West Wildcats squad. "Too many ifs," the T-master puts it. "If this boy comes through and if that boy comes through, we might have a fair ball club," Fezacca says.

His pessimism is understandable since no fewer than 20 let-

terms have gone their separate ways following graduation, chief among them Touchdown Twins Lee Hermen, who established a conference scoring record last season, and Dick Brock along with ends Bob Apple and Paul Zimmerman, tackle Lew Imig and guard Dave Baeb and quarterback Raoul Bouffard—all regulars.

Three Line Stars

Only 10 players, four of them with little experience, have returned. This contingent is headed by three all-conference linemen, center Dick Campbell, a standout

linebacker; guard Jim Williquette and tackle Dick Maierle, plus fullback Frank Neu. The others are quarterback Jerry Proctor; and halfbacks Bill Anderson, Jim Saunders and Fred Scheffen; guard Calvin Whiting and end Paul Noack. End Bob Geurts, a transfer from Central Catholic, should help.

Jack Van Domelen, a 6-foot, 3-inch, 200-pound tackle figured to bulwark one side of the West forward wall, also was lost before the season started when his family moved to Muskegon, Mich.

Gonsalves Earns Win Over Davis

OAKLAND, Calif. — Sharp-shooting Johnny Gonsalves, leading contender for the world lightweight championship, was closer to a title bout today.

The slender Oakland boxer retained his role of No. 1 challenger with a 10-round unanimous decision over fifth-ranked Henry Davis of Los Angeles Wednesday night.

Gonsalves out-boxed Davis, scored with left hooks and counter-punched effectively with rights to the jaw. Davis slammed into Gonsalves with a flurry of punches to win the ninth and tenth rounds. Referee Jack Downey and judge Eddie James both scored the fight 53½-54½ for Gonsalves. Judge Toby Irwin had it 58-52. The Associated Press carded it 56-54.

Gonsalves is signed to meet Dupas, New Orleans youngster, there Sept. 21. After that he hopes to meet Jimmy Carter for the title.

Vinegar Bend Mizell Gets Army Deferment

ST. LOUIS — Wilmer (Vinegar) Bend Mizell, southpaw hurler for the St. Louis Cardinals, will be able to finish the baseball season before he is inducted into the Army.

The 23-year-old Mizell said Wednesday he had been granted a second deferment by his draft board in Leakesville, Miss.

He was scheduled to be inducted Thursday by the Belleville, Ill., board. Mizell lives in Belleville during the baseball season.

Robin Roberts of the Phillies is the real workhorse among modern day pitchers. He has pitched 304 or more innings during the last three seasons.

Allie Reynolds of the Yankees would like to win two more World Series games before he retires. He has won six.

Three-Year Renewal Of Rose Bowl Signed

SAN FRANCISCO — A three-year renewal of the Rose Bowl agreement between the Big Ten and Pacific Coast Conference was signed Wednesday.

The pact provides for games at Pasadena, Calif., on New Year's Day in 1955, 1956 and 1957. The present contract expires Jan. 1.

No team may play two years in a row.

Jack Greenwood, the Bay City softball pitcher who earned himself a favored role in the state tournament here last weekend, was named to a first team berth on the all-state high school football team last year. Greenwood was a quarterback at Bay City High School and was scheduled to enroll at Michigan State College this fall.

The Marinette Marines threw up the best grid defense displayed in last weekend's grid activity in the U. P. area. The Marines, under new coach Marlon Batterman, stopped the Hurley Mid-jets cold while posting a 33-0 opening win Saturday night. Hurley was able to gain only 32 yards on the ground against the Marine defenses. Marinette backs raced for 320 yards on offense.

Local grid fans will have an opportunity to see both St. Joe and Escanaba High teams in home stands this weekend. The Trojans entertain the Stambaugh Hilltoppers Friday night at Memorial Field. The Eskymos are host to Green Bay West the following afternoon.

In fact, the 1953 schedules for the two teams are unique in that there are no duplications of dates in the entire season. The only date in the season that both teams play on the same day is Oct. 10, and then the Eskymos are slated for a day contest and the Trojans at night.

That column item scrambled up in yesterday's issue was intended to say that Brock Strom, former Ironwood High School athlete, was making a varsity bid at Indiana University. And we notice in today's report from midwest grid centers that Mel Holme, ex-Stambaugh High pile-driver, has been moved up to first string fullback at the University of Minnesota.

Injury-Riddled Broncs Host To Rock On Friday

BARK RIVER — The injury-riddled Bark River Broncs will make their first home showing of the 1953 football season Friday afternoon at 1:30 against Rock.

New coach Tom Janssen and assistant Paul DeBen have been forced to reshuffle the starting lineup to replace two gridlers lost through injuries suffered at Crystal Falls last Saturday.

Florian Bartoszek and George Bruce will be out of action for the remainder of the season, Janssen said today. The return to school of Dick Tousignant, who will take over the fullback duties, has helped fill the gap.

Also missing from tomorrow's starting lineup will be regulars Dick Shepherd and Johnson, who sustained injuries at Crystal Falls.

Slated for action in starting roles are center Ken Olson, guards Pete Kasbohm and David Sheridan, tackles Louis and Frank Dubord and ends Wayne Erickson and Terry DeLaughary. Bill Good will be at quarterback, Wallen Godlewski and Jim LaVigne at halfbacks and Tousignant at fullback.

The game will mark the opener for Rock and new coach Pete Tinsley, former Green Bay Packer guard.

Janssen listed Ted Cota and Art Richer as first string defensive players sure to see action.

Officials will be Ken Gundersman, Red Williams and Ted Baldwin, of Escanaba.

Gasman Leading In Pram Races

In pram races at the yacht harbor last evening, Dave Gasman won 3 of the 4 heats sailed by first division contestants in the Escanaba championship series. Winner of the fourth heat, and runner-up on total points in the division, was Dave Johnson.

A fresh south wind made fast sailing around the triangular course and the longest time for any heat was under 15 minutes. Competition was made lively by handicapping and all four entrants finished the first heat less than 15 seconds apart.

Names of the four skippers in the first division were selected by lot from the total list of entrants and all skippers sailed each of four different prams during the event. For every heat, contestants received one point for finishing plus a point for each boat that they beat. The winner of the heat was awarded an extra ¼ point. Points won by the four sailors in the first division were as follows:

Skippers	1	2	3	4	Tot.
D. Gasman	4 ¼	4 ¼	4 ¼	3	15 ¾
D. Johnson	3	2	2	4 ¼	11 ¾
F. Erickson	2	3	3	2	10
F. Sundstrom	1	1	1	2	4

Following the pram races, members of the Escanaba Yacht Club held their regular monthly meeting. During the meeting, it was announced that Charles Gesser had offered to donate a trophy for the pram class championship.

Weather permitting, the series for boys and girls in the second division will be held this evening, with the 15 minute warning signal scheduled for 6:15. The parents of contestants and others interested are again invited to bring a picnic supper to the EYC club house.

MSC Passing Attack Getting Fine Polish In Practice Drills

By ROBERT E. VOGES

EAST LANSING — Michigan State's passing attack is getting a fine polish in football scrimmage sessions this week.

In yesterday's session, Coach Biggie Munn threw his No. 1 eleven against his second team in an hour-long scrimmage. The first team outscored the substitutes 4-2 with five of the six touchdowns coming on passes.

Tommy Yewic, quarterback, threw three "pony backs," three three scoring passes. Receivers were end Dohoney of Ann Arbor, halfback Billy Wells of Menominee and fullback Jerry Planutis.

Slonac Scores TD

Flint's Leroy Bolden was the other halfback in the first string backfield. Planutis alternated with fullback Evan Slonac, who carried for the fourth touchdown scored by the regulars.

Earl Morrall of Muskegon ran the second team backfield. Jimmy Ellis of Saginaw and Bert Zagers of Cadillac were at the halves and Gene Lekenta of Grand Rapids and Vic Postula of Marshall alternating at fullback.

Flint's Ellis Duckett worked at both halfback and end and pulled down one of Morrall's passes to score for his outfit.

Johnny Matsock of Detroit, a halfback on the defense and a quarterback on offense, intercepted a pass for the other score by the second stringers.

Munn Cracks Down

Although the passing looked good,

OUR THANKS

To all the fans and supporters, umpires and gate attendants who helped to make our past season a successful one. Especially do we wish to thank Andy Barr for keeping the grass and grounds in such beautiful condition and Mrs. Tom Swift for the grand "Victory Banquet" extended our club.

Indians Finish Fast, But Season Nears End

By THE ASSOCIATED PRESS

Cleveland's Indians have won 20 of their last 23 games, but in the season's end a little over two weeks away, they still trail the pennant-bound New York Yankees by nine games.

Last year, the Indians won 18 of their last 21 games, but in the same period the red-hot Yanks gained half a game on them. They finished two games behind the world champions.

The Yankees need only a combination of nine victories and—or Cleveland losses to clinch their record-breaking fifth straight championship following Wednesday night's 9-3 victory over the Chicago White Sox. The Indians boosted their second-place margin to four games over the White Sox, edging out the Boston Red Sox 2-1.

Magic Number Is Two

Brooklyn's National League-leading Dodgers reduced their "magic number" to two for mathematical elimination of Milwaukee, shutting out the Cincinnati Redlegs 6-0 while Philadelphia was blanking the Braves 2-0.

Amateur Golfers Tee Off In Tournament

NEW YORK (AP)—The winners of four of the last six British Amateur golf championships, two former U. S. amateur champions and two runners-up and the 1952 and 1953 Canadian amateur champions will swing into action Monday when play begins in the 53rd U. S. Amateur golf tournament at Oklahoma City.

But the only player ever to win the British, U. S., Canadian and French amateur titles — Dick Chapman — won't be there. He has withdrawn, the United States Golf Ass. announced Wednesday.

Yesterday's Stars

By The Associated Press

Batting — Al Rosen, Indians — Hit his 40th home run with a man on base in the eighth inning to give the Cleveland Indians a 2-1 triumph over the Boston Red Sox.

Pitching — Bob Milliken, Dodgers — Relieved the injured Johnny Podres with two on and two out in the first inning and pitched hitless ball the rest of the way as the Dodgers blanked the Cincinnati Reds 6-0.

Tigers Split To Keep Sixth Place

PHILADELPHIA (AP)—Detroit's Tigers headed for Yankeealand today, still clinging to that slim half-game hold on sixth place in the American League.

They kept the edge over Philadelphia by splitting Wednesday's two-night doubleheader with the Athletics, whom they displaced in the standings on Labor Day.

The Tigers won the opener 8-2 behind Ralph Branca's seven-hit pitching, but bowed to rookie Marion Fricano in the second game, losing 7-1.

Both the Tigers and A's are idle today, so Detroit will carry the advantage to New York where the club begins a two-game series with the league-leading Yanks tomorrow.

Young Fricano gave up only four hits in recording his eighth win of the season against 10 defeats, and he had a one-hitter in the works until the eighth inning. Fred Hatfield had singled in the first, but the Tigers couldn't score until the eighth when Johnny Pesky doubled with one out and scored on Matt Batts' single.

The only other Detroit hit in the nightcap was Harvey Kuenn's ninth-inning double, which extended his hitting streak to 15 straight games.

Steve Gromek was the starter and loser, allowing the first three Philadelphia runs. His record 6-8. Ray Herbert pitched a rugged eighth inning, in which the Athletics got four runs on three singles, a walk, an error and a wild pitch.

The Tigers took the lead in the opener in the third when Kuenn doubled and moved home on two successive long fly balls. A five-run sixth inning, sparked by home runs by Steve Souchock and Johnny Bucha, sewed up the game for Branca.

MANISTIQUE

K-C To Install Staff Monday

Officers of Manistique Council 2026, Knights of Columbus, will be installed Monday evening, Sept. 14, beginning at 8, it is announced by Thomas L. Smith Jr., grand knight.

Installing officer will be Francis T. Rooney, newly appointed district deputy who succeeded R. Z. Bertrand following the latter's resignation as of July 1. Rooney is presently grand knight of Escanaba Council No. 640. He will bring his own installing staff with him.

Following the installation ceremony a program will be presented, including a movie, lunch and refreshments and games. Jack Roemer, lecturer, has charge of program arrangements.

The following officers will be officially seated:

Grand knight, Thomas L. Smith Jr.; deputy grand knight, Donald Messier; chancellor, Nick Parente; advocate, George Wood; warden, Robert Berger; treasurer, William Wedegartner; financial secretary, Ferdinand Gorsche; recorder, Phillip Villeneuve; lecturer, Jack Roemer; trustees, Dan Harrington, William Rodman, Anton Weber; outside guard, Lyle James Sangraw; inside guard, Lawrence LaPorte.

County Has Top Sharp-Tail Area

Northern Schoolcraft County is rated as one of the best sharp-tailed grouse areas of the Upper Peninsula, it is revealed by the Michigan Department of Conservation.

In the department's regular bulletin the area is reported to be populated by the Seney-Shingleton sharp-tail colonies. Another colony of sharp-tails well known to the department is located on Drummond Island.

Other well known sharp-tail areas are north of Gladstone, south of Crystal Falls, in southern Houghton and northern Ontonagon counties, north of Newberry, and near Trout Lake between Newberry and St. Ignace.

Game men say, however, that the birds are found in a large number of areas throughout the region and that hunters should be able to find good grouse hunting territory without having to stick to the better known spots.

Death Claims Earl W. Winn

Earl Wakefield Winn, 69, 139 N. 5th St., passed away Tuesday evening at his home after an illness of several months.

He was born Sept. 29, 1883, in Nashville, Mich., and has been a resident of Manistique for 60 years.

Mr. Winn had been in the evergreen business for many years. He was married in Manistique on June 15, 1919.

He was a member of the First Methodist Church.

Survivors are his wife, Elma, and a sister, Mrs. Leon Green, of Jackson.

Funeral services will be held at 2 p. m. Friday from the Kefauver and Jackson Funeral Home with the Rev. Edgar M. Smith, pastor of the First Methodist Church, officiating. Burial will take place in the Fairview cemetery. Friends may now call at the funeral home.

Plan Marking Of Historic Sites

A state-wide project to mark major highway historic sites has been launched by the Michigan Historical Commission, it is announced by Charles Follo, Escanaba, member of the survey committee.

Dr. Willis F. Dunbar, commission member, has been named by Governor Williams to head the project committee.

Dunbar has requested Follo to assume chairmanship of a group which will designate the most important sites along US-2 in the Upper Peninsula.

"It is hoped that from the sites suggested several will be found worthy of being marked within the next year or so," Follo said.

Although one such historic site to each 25 miles of highway has been recommended as the maximum, circumstances may require that more than one site in each 25 miles be approved, Follo said.

Individuals knowing of historic spots along US-2 in the Manistique area are requested to submit reports on them to the Press office.

Katherine Shay Retiring From Post Office Job

Mrs. Katherine Shay, well known resident of Germfask, has announced her retirement as postmistress at Germfask.

Mrs. Shay, widow of the late Hugh Shay, prominent Germfask lumberman for many years, was appointed to the post office position in 1935. Illness after 18 years of faithful service hastened her decision to retire.

She plans to continue her residence in Germfask but expects to spend part of each year in Florida.

Her son, Leonard, president of the L. H. Shay Veneer Company, resides in Germfask and a daughter, Miss Kathleen Shay, lives in Detroit.

CARD OF THANKS

It is with a feeling of sincere gratitude that we take this means of expressing our deep appreciation to our friends and neighbors for their kindness shown us at the time of the death of our beloved father, Thomas Vallier. We are very grateful to the Rev. George Pernaski, to those who served as pallbearers, offered the use of the cars, those who sent flowers and others who aided us in so many ways. Your kindness will always be held in grateful remembrance.

Signed:
Mr. and Mrs. Ernest Derwin

CARD OF THANKS

We wish to express our grateful appreciation to the many fine people who have helped us following the loss of our home and other properties in a recent fire. Gifts of clothing, furniture, household furnishings and money have been made to us by organizations and persons whom we do not even know personally. Such kindness in the face of our disaster has overwhelmed us and we find it difficult to put our gratitude into words. Thanks, all of you, and God bless you.

Townsite Hums At White Pine

ONTONAGON (AP)—White Pine townsite is humming.

A busy development project at the White Pine copper mine has turned the area into a bustling scene.

Dormitories, single-family homes and trailers are housing more than 300 of the 1,200 construction workers preparing the townsite for an ultimate 2,000 inhabitants.

White Pine now is only a dot on the upper Michigan map. But it gives promise of being more than that.

The townsite development is a \$15,000,000 project. It is an initial step ahead of actual operation of the mine by the White Pine Copper Co.

This is expected for the fall of next year. By that time full housing is expected to be available. For the time being most of the workers are commuters from Ontonagon, Mass., Wakefield and other communities.

When the mine is ready for operation, close to 1,000 employees will be needed.

The White Pine company plans to take 12,500 tons of copper daily from the mine.

Skunk Walks Into Sheraton Cadillac

DETROIT (AP)—At 1:15 a. m. Wednesday and for a half hour thereafter the Sheraton Cadillac Hotel dealt with a crisis.

A skunk was an unbidden visitor. The skunk wandered into a revolving door leading to the lobby.

That was as far as it got. A cagey taxicab driver put the door in a closed position, trapping it.

After a half hour's heavy consultation, the hotel help eased the door around until the skunk walked back into the sidewalk. It was permitted to disappear.

Reds Still Enemy

CANBERRA, Australia (AP)—Prime Minister Robert Menzies declared the Australian government would not even talk about recognizing Communist China until the Korean situation is settled. Speaking to the House of Representatives, the Prime Minister said: "We don't discuss the recognition of an enemy in the field."

Mammoth Cave, Ky., was discovered by accident in 1809, when a bear wounded by a hunter named Hutchings led him to its lair, an entrance to the cave.

Puts On Blue Bonnet —Appreciates F.N.E.!

MRS. JAN PEECE

Like the noted singing star's wife, you, too, will fall in love with F.N.E.—Blue Bonnet Margarine's Flavor, Nutrition, Economy!

Blue Bonnet's delicate, sunnysweet flavor makes bread, hot rolls, vegetables, your favorite recipes all taste truly better!

You get extra nutrition, too! Unlike most other brands, Blue Bonnet contains as much year-round Vitamin A and Vitamin D as the high-priced spread!

Yet Blue Bonnet costs less than half as much! So switch today to F.N.E.! Insist on BLUE BONNET Margarine and be sure of "all 3's"—Flavor, Nutrition, Economy—e!

From Footpower To Horsepower

Yes, the car is here to stay, but these two men show some uses of the bicycle, one ancient and one new. The odd-looking wooden-wheeled forerunner of the bicycle, was invented by a German noble in 1816. The "sit-down-to-walk" vehicles were used by wealthy people and soon acquired the name "Dandy Horse." The

rider, Mark Rochon, dressed in 19th century garb, sits on the saddle and walks the bike, at Ford's Dearborn, Mich., museum. The farmer, right, from Matane, Canada, hitchhikes his bike to a horse and lets Dobbin do the work. He's taking the horse to the field to work, but riding the bike is more comfortable than riding the mare.

Springfield, Mo., Has King Cobra Scare

SPRINGFIELD, Mo. (AP)—King cobras usually are found in India, but people have reported seeing them around here lately and they're getting worried.

They've even stocked up on cobra serum, flown here from Florida.

The latest of a series of six snakes was found Tuesday night by 10-year-old Vickie Solomon. She and her dad said they thought it was a cobra. But a pet show owner who took the snake away, said he thought it was a common bull snake.

A snake found Aug. 22 started

the commotion. A high school science teacher identified it as a king cobra. Others also were reported finding snakes they believed were cobras.

Dies In Car Fire

PONTIAC (AP)—An autopsy Tuesday showed Merle J. Howell, 56, a Pontiac factory worker found in his

blazing car Monday, had died accidentally. Prosecutor Fred C. Ziem said Howell apparently fell asleep in his car while smoking.

Chatham

CHATHAM—Mr. and Mrs. Robert Smith are the parents of a daughter, Linda Lee, born Wednesday, Sept. 2 in St. Mary's Hospital, Marquette. The baby weighed 6 pounds and 14 ounces at birth.
